The conduct of Baroness Uddin Great Britain: Parliament: House of Lords: Committee for Privileges and Conduct, 2010-10-18 The focus of this report is Baroness Uddin's use of the Members Reimbursement Scheme from May 2005 onwards regarding her designation of three successive properties in Frinton on Sea, Maidstone and Wapping, London as her main residence. The last of these designated on 1 January 2010 has been Lady Uddin's family home since 1993. The Sub-committee on Lords Conduct found that Lady Uddin's interpretation of main residence was unreasonable. The designation of the Frinton and Maidstone properties was a deliberate misrepresentation of her position and the travel claims were made with the intention of substantiating her designation of her main residences. In total, the Sub-committee calculated that she wrongly claimed £125,349.10 over the period in question. Lady Uddin appealed to the full Committee against the Sub-committee's findings and recommendations. The Committee upholds the finding on the sum wrongly claimed and recommends that she makes a personal statement of apology to the House and is then suspended from the House for three years or until she has repaid the sum wrongly claimed, whichever is the later.

**Contemporary Issues in Branding** Pantea Foroudi, Maria Palazzo, 2019-12-06 This book provides students and academics with a comprehensive analysis of the theory and practice of branding. The challenge to explore new and effective ways of harnessing the power of communication to engage with company stakeholders in interactive, immediate and innovative ways is ever present in the digital era. Digital marketing and social media create opportunities for managers to communicate their brand's identity to their consumers and stakeholders. Yet limited empirical research exists to elucidate these issues and less still that assists our understanding of branding issues at an international level. Recognising the complexity and plurality at the heart of the branding discipline, this text explores the relationship between brands, identity and stakeholders. Working through building, designing and maintaining a brand, the authors consider such aspects as strategic planning and campaign management, research and measurement, media relations, employee communication, leadership and change communication and crisis branding. Critically differing methods and approaches applied to branding and communication research design are assessed, including both qualitative and quantitative methods. Proposing a mixture of theory and practice with international case studies, this book is an invaluable companion for advanced undergraduate and postgraduate students, academics of marketing and strategic brand management as well as managers and decision makers globally.
