

Essay 1 – English 102
Mrs. Matayabas
Fall 2012

Censorship: What it means to me and all of America

First read and respond to the article “What is Censorship” by the GILC posted under “Handouts” on the class website. In a full 2 page essay, respond to the article and relay experiences that have helped you form your attitudes toward censorship. Perhaps you haven’t thought about censorship before? It’s time to think about it now and you should spend some time talking to respected peers, friends, and family members about censorship. Through those discussions, and further research if needed, begin forming your own opinion.

You may find it helpful to recall a time you decided to “self-censor” or a time you decided to exercise your right as a citizen to “freedom of speech” and chose to share your opinions. Often, our decisions to censor ourselves or share our opinions begin a chain of events that cause us to appreciate our freedom of speech or contemplate censorship.

Be thoughtful of your audience in your organization and thorough description by using examples and narratives. Remember to come to some conclusion as to why your view of censorship is significant to others and the concept of free speech.

Remember, the first essay is always an opportunity to “show off” your writing skills for your college English Instructor. Allow yourself to be creative!

Follow all essay format instructions and review the grading rubric (both are included in your ENG 102 course description) to gain a better understanding of how this essay will be graded.
Good Luck!

How To Write A College Paper:

How to Write a College Paper in Five Easy Steps Laura Linker, 2010-04-21 This concise guide offers five simple steps that anyone can use to write an effective paper. It covers areas such as introductions, body paragraphs, organization, active voice, and conclusions. It also includes examples in each section, advice for success, and simple rules for writing effective papers.

Student's Guide to Writing College Papers Kate L. Turabian, 2010-04-15 High school students, two-year college students, and university students all need to know how to write a well-reasoned, coherent research paper, and for decades Kate Turabian's *Student's Guide to Writing College Papers* has helped them to develop this critical skill. In the new fourth edition of Turabian's popular guide, the team behind Chicago's widely respected *The Craft of Research* has reconceived and renewed this classic for today's generation. Designed for less advanced writers than Turabian's *Manual of Writers of Research Papers, Theses, and Dissertations*, Seventh Edition, Gregory G. Colomb and Joseph M. Williams here introduce students to the art of defining a topic, doing high-quality research with limited resources, and writing an engaging and solid college paper. The *Student's Guide* is organized into three sections that lead students through the process of developing and revising a paper. Part 1, *Writing Your Paper*, guides students through the research process with discussions of choosing and developing a topic, validating sources, planning arguments, writing drafts, avoiding plagiarism, and presenting evidence in tables and figures. Part 2, *Citing Sources*, begins with a succinct introduction to why citation is important and includes sections on the three major styles students might encounter in their work: Chicago, MLA, and APA, all with full coverage of electronic source citation. Part 3, *Style*, covers all matters of style important to writers of college papers, from punctuation to spelling to presenting titles, names, and numbers. With the authority and clarity long associated with the name Turabian, the fourth edition of *Student's Guide to Writing College Papers* is both a solid introduction to the research process and a convenient handbook to the best practices of writing college papers. Classroom tested and filled with relevant examples and tips, this is a reference that students and their teachers will turn to again and again.

Starting and Finishing the Paper Michael Walters, Ellen Diehl-Matto, 2006-08 *Starting and Finishing the Paper: A How-to Guide to Quality College Papers*, Second Edition, is an excellent book for college students having difficulties with writing their college papers. It is a fun and step-by-step approach from start to finish. *Starting and Finishing the Paper* covers how to start a paper, how to write an introduction, how to handle different assignments, building the body of the paper, plagiarism, proper quoting, paragraph construction, transitions, and writing conclusions. It also contains many writing examples for students to follow. *Starting and Finishing the Paper* is short and to the point but not short on advice to the college student from two professors of writing who have taught for decades. Inside are many insightful comments written by the authors about the pitfalls students fall into and how to avoid them. It is not only written for students taking their first college composition course but also for students who need to write research papers and literary papers.
