OVERTRADING!!!**

The background image shows a person with blonde hair, seen from the side, looking at two computer monitors. The monitor on the left displays a financial data table with columns for 'High', 'Low', 'Open', and 'Close'. It lists various market indices including NY, FRA, and CAFE. The monitor on the right displays a line chart with multiple colored lines (blue, green, red) representing different data series over time. The text 'NO MORE OVERTRADING!!!' is overlaid in large, bold, white capital letters across the center of the image.

**Trading Psychology Collection** LR Thomas,2024-06-01 If You Want to Be Successful in Trading You Need to Buy This Book In these four best selling trading psychology books you will find practical immediately usable strategies to improve the way you trade *Control Your Inner Trader* Self control is probably the most important skill you need to acquire as a trader Unfortunately most trading

psychology books can be very vague and short on specific strategies to take control of your mental state while trading. Trading psychology shares equal importance with money management and the trading system and yet most traders remain unaware of the importance of taking into account their trading psychology when designing a trading system. What traders need is an unambiguous trader psychology system that can easily slot into whatever system they are trading and enable them to trade their system according to their trading plan. *Control Your Inner Trader* draws on the experience of an eight year trading veteran who is also a qualified therapist. Behavioral and therapeutic techniques are included in the book that is easy for anyone to follow. *Overcome Your Fear in Trading*. The most prevalent emotion facing traders is fear. Fear causes traders to exit trades too early ruining their equity curve. Fear causes traders to self sabotage so they can fulfill their self fulfilling prophecy of trading failure. Fear causes traders to find reasons to avoid taking trades that would have been winners. Fear causes traders to exit trades before they have a chance to get the move underway and then have the misery of seeing a profitable trade run away from them. There are many more destructive aspects to fear in trading and what is vital for the trader in order for them to succeed is to have a way of thinking about trading that eliminates fear from the trading process. *How to Stop Over Trading* is the latest book in the trading psychology series of books by L R Thomas. This book zeroes in on the specific reasons traders take trades outside their trading plan and offers simple solutions to stop over trading forever. The truth is that if a trader consistently trades outside their strategy even on a demo platform they are very unlikely to succeed in trading. If you are skewing your trading results by taking trades that you shouldn't then this book could change your trading for the better forever. *Patience*. Lack of patience also causes negative behaviors related to trading such as not bothering to back test the system, not keeping careful records and not doing an end of day or end of week analysis of trading results to find areas of improvement. The feeling of things not moving fast enough also causes traders to add too many trading systems to an already overloaded brain and not be able to focus properly on any one strategy to make it profitable. The profitability of the trading system is profoundly impacted by these types of behaviors and turns what is a money making system in theory into a loss making system in the real life. The 10XROI Trading System LR Thomas, 2024-06-01. If you are fed up with trading systems that promise the earth and fail to deliver then The 10XROI Trading System will not disappoint. A leading foreign exchange broker conducted a study that found that winning traders had something in common. Their wins were much larger than their losses. Many trading systems are designed to have lots of wins but that doesn't make them profitable they just appeal to the Holy Grail seeker who is looking for a trading system that never loses. By trading high probability trading strategies that give a very large risk reward ratio like The 10XROI Trading system you will automatically have a much higher chance of actually making a profit in the Forex markets. You may be an experienced trader who has already taken many trading courses or you may be just trying to decide on the best trading system for your personality and life circumstances. Written by a trader with over eight years of

experience in trading foreign currencies gold and futures this book is written in an easy to comprehend style with lots of illustrations and trading examples to help clarify each part of the system This trading strategy is simple and easy to follow and takes up a very small amount of time as it uses the daily and hourly time frames Unlike most day trading systems this makes it easy to trade around most jobs Most importantly it explains every part of the system including the correct trading psychology and money management which most systems leave out Recent Review Ever heard the expression buy low sell high Or how about let your winners run and cut your losses I especially like ensure your winners exceed your losses I just finished reading a book on the Quants whose mantra is to put the maths or the odds on your side Oh and I love the Jesse Livermore quote It never was my thinking that made the big money for me It always was my sitting Great Sayings Wonderful sayings Fantastic But my thinking most retail strategies do not capture most if any of these principles So is there a methodology that retail traders can use even with limited funds that captures all of this And I mean all of this I believe there is LR has put together a strategy that does as the big boys do focusses not on consistency of trades but consistency of the trader using a simple intuitive market rhythmic approach Of the strategy Does it Buy low Sell High Yes Are Winners run Losses cut Yes Do Winners exceed Losers Yes Is the Maths on your side Yes Do you Wait for trades to come to you Yes I have been trading the 10XROI strategy for just over a month now The last two weeks of trading has seen me bag over 1000 pips And yet that is not I repeat NOT the focus or what impresses me It is the rate of return Each trade aims for a take profit of 10R and always a stop loss of 1R which I have achieved While it s still early days for me I already know the principles taught are the principles practiced and espoused by the world s foremost traders There is no magic bullet Just sound time tested principles focussed on patience a simple strategy money management and sound psychology Why reinvent the wheel Just spin that thing Kevin

**How to Avoid Fear and Greed as a Trading Beginner** Zordi Cobre, Trading is challenging for most people because they simply don t have the right information tools or confidence to become successful How to Avoid Fear and Greed as a Trading Beginner is important for beginners because it tells it like it is and gives an inside look at trading the financial markets giving you the reality on what the live market is really like the way they are really run and tells you who runs them and what you need to do as a self directed beginner to survive in them and avoid the fear and greed that is so prevalent in the financial market trading business Let s face it it s a well known fact that 97% of brand new self directed investors and traders fail and lose all of their money why does this happen It happens because brand new self directed traders enter into this business with a bunch of misguided grandiose ideas of making a million dollars from trading and while you can surely make millions of dollars from trading you would need to be using hundreds of millions of dollars of capital to do so no joke As a brand new self directed trader you have no idea of the brutality and volatility that goes on in the live markets on a daily basis and that there are people in the live markets who will walk over dead bodies to get paid so make no mistake as a beginner and think you can go in the live market and beat them you can t What you can do though is properly

prepare yourself to trade with the best traders in the world and get paid right along with them instead of paying them Once you have completed reading this entire book you will have a chance at competing with the best professional traders on the planet The information in How to Avoid Fear and Greed as a Trading Beginner will put you on the fast track to being able to make an unlimited income for yourself and becoming consistently profitable enough from trading the financial markets to perhaps even making a living from doing it isn't that the type of business you would like to be in

**Control Your Inner Trader** LR Thomas, 2024-03-10 Why Should You Buy This Book Self control is probably the most important skill you need to acquire as a trader Unfortunately most trading psychology books can be very vague and short on specific strategies to take control of your mental state while trading Trading psychology shares equal importance with money management and the trading system yet most traders remain unaware of the importance of considering their trading psychology when designing a trading system What traders need is an unambiguous trader psychology system that can easily slot into whatever system they are trading and enable them to trade their system according to their trading plan Control Your Inner Trader draws on the experience of an eight year trading veteran who is also a qualified therapist Behavioral and therapeutic techniques are included in the book that are easy for anyone to follow Reader Reviews QCD Well worth the time and money Ms Thomas makes some analogies in her books that I have NEVER read in other trading psychology books Excellent Well worth the money This book combined with Overcome Your Fear in Trading are most excellent Made me want to look into some of her other works I was not disappointed Alan 5 0 out of 5 stars A refreshing new angle on how to improve trading results Few trader psychology books deliver on sufficient tools This book is surprisingly different Despite being short compared to other well known top trader books as Trading in the Zone by Mark Douglas and Trading for a Living by Alexander Elder I must say that Control Your Inner Trader is definitely among the better ones Any trader who believe that he or she can improve despite even good results will find this book have a refreshing new angle on how one can improve behavior and become a much better trader This book is time well spent Patrick Higdon Great Book Useful quick and to the point Useful quick and to the point I highly recommend this book to anyone experiencing trading frustrations Many times the first thing we question is our system or methodology when the greatest obstacle to success is ourselves our Inner Trader This book is worth a read of you're just starting out or have been trading for a long time Alastair Forres Very helpful book indeed in a difficult subject area For a short book I found more practical solutions for erroneous mental habits whilst trading than you might ever imagine This is for me the most difficult area of trading and the author LR Thomas has got right the nub of issues with no fluff or filler I am adopting parts of this book as my mantra

Trading Rules that Work Jason Alan Jankovsky, 2011-01-20 Trading Rules that Work introduces you to twenty eight essential rules that can be shaped to fit any trading approach whether you're dealing in stocks commodities or currencies Engaging and informative Trading Rules that Work outlines the deeper psychology behind each of these accepted trading rules and provides you with a better understanding of how to make those

rules work for you      **10 Ways to Get Rich from Futures Trading** Giuseppe Scuti, 10 Ways to Get Rich from Futures Trading gives beginner futures traders some simple actionable easy to use investment and trading ideas for writing their own rule based trading plan which will give them an edge over the competition in the live financial markets All of the techniques presented in this book are simple enough for total beginners with zero experience to use in order to begin making money right away The market is not a big secret and all of the information you need to make a trading decision is right out in the open If you know where to find the information and know what to look for you can and will make some money every day in the market provided you are looking at the right information and utilizing the best trading techniques 10 Ways to Get Rich from Futures Trading can help you keep it simple and filter the huge amount of information out there down to only what you need to know to begin making money right away from trading futures My philosophy is to start small and build on success have limited exposure while you hone your skills then progress as you become more competent and build up your account and the techniques in 10 Ways to Get Rich from Futures Trading can help you begin doing that All futures traders who have made it and make money consistently in the market are making it from the beginner traders who have visions of grandeur and dollar signs rolling around in their eyes like some old cartoon don't be that trader If you want to make it in this business I would listen to the advice in 10 Ways to Get Rich from Futures Trading very carefully I am going to share with you some valuable information that professional real money traders don't want you to know about      *20 Most Common Trading Mistakes* Kel Butcher, 2012-01-06 You're a trader You live a life of glamour fast cars leisure and luxury everything you've ever dreamed of Of course that's until you discover that trading can be brutally difficult If you play the trading game you are going to make mistakes maybe even some like these agonising endlessly over when to enter or exit a trade trading like a maverick risking too much of your capital beating yourself up when a trade goes against you losing 1 million in a single trade clicking buy instead of sell buying 10 000 units when you only meant to purchase 1000 20 Most Common Trading Mistakes reveals market mishaps from some of the biggest names in trading Everyone from stellar traders to complete novices can use help learning how to trade in the black Why not learn from the masters how to turn blunders into profit      The Ticker and Investment Digest ,1909      **How to Trade with High Probability** Ricardo Moneta, Beginner traders all make the same mistakes over and over because they don't know any better they also don't use low risk high reward high probability techniques in their trading and investing now you can Beginner traders tend to do what everyone else is doing and study what everyone else is studying thus they have the same results and failures as everyone else and is very low probability don't be that trader This financial market trading business isn't really an H P type of business what is H P you might be asking hoping and praying you don't need a rosary you need an edge I'm not going to sugar coat it this business is an ugly place for an untrained and underfunded beginner There are very bad people in the live market who are looking to take all of your money from you and they will should you not be prepared properly to go to work in the live markets don't say I haven't tried

to warn you Use this book as an overview or a guide if you will for what to study and learn first to become consistently profitable from trading utilizing the high probability techniques in the book I give you concise information as to what type of high probability techniques to learn and what to look for as far as further advanced information is concerned I tell you only the most critical things to learn first because those are absolutely the most important and the ones that will have a high probability of making you money right away if you do them Simple basic and easy to understand if I can give you one word of advice I will tell you to keep it simple because trading really is simple if you keep it that way You do not need any indicators or fancy systems methods or software that the so called gurus are all touting to do high probability trading The market only works on supply and demand and supply and demand is the only thing that moves price on a chart from one value area to another Doesn't it make sense then to study what makes the market do what it does and use that as your high probability trading method

Patience LR Thomas, 2024-03-10 PATIENCE Why You Need to Read PATIENCE the latest in the series of Trading Psychology Made Easy books A recent reader survey demonstrated that one of the biggest trading psychology issues that traders face is related to their own inability to just sit and wait for the best time to take an action whether that be to enter a trade move a stop loss or wait for the planned take profit target This inability to simply wait leads to entering trades when there are no trades to take over trading exiting trades too early without allowing them time to develop and exiting trades before the take profit has been reached Lack of patience also causes other negative behaviours related to trading such as not bothering to back test the system not keeping careful records and not doing an end of day or end of week analysis of trading results to find areas of improvement The feeling of things not moving fast enough also causes traders to add too many trading systems to an already overloaded brain and not be able to focus properly on any one strategy to make it profitable The profitability of the trading system is profoundly impacted by these types of behaviors and turns what is a money making system in theory into a loss making system in the real life The problem facing traders is that personal change can be hard and requires extensive inner work to change a person from impulsive and impatient to someone who routinely practices patience on a daily and hourly basis This little book follows the theme of the other related Trading Psychology Made Easy books and aims to give traders a new way to look at trading which will naturally increase positive trading behaviors in an

effortless way Using powerful techniques from the world of NLP Hypnosis and EFT help make lack of patience a non issue in your trading performance Get the Book Now and Start improving Your Trading Today     [How to make High Profits Trading Forex](#) J.
