#### Individual oral

Please ensure that the visual stimuli presented to the candidates are directly linked to the target culture. Words should only appear on the visual stimulus if they are a natural part of the scene, for example, shop or street signs. Any such words should be in the target language.

Introductions, even if they do not form an official part of the oral, should take place in the target language. The candidate should introduce himself/ herself in the target language giving name and candidate number.

Teachers are reminded to 'guide' students through the oral by informing them of when one Part is over and when another is about to begin.

In order that candidates can access the upper markbands for both criteria, teachers are encouraged to intervene if necessary and move the candidate on in order that the three parts are completed in timely fashion.

Teachers are reminded to ask the two compulsory questions on the Written Assignment after the description and follow-up questions on the visual stimulus. It is important to ask these questions because the student will possess the necessary vocabulary to handle both open ended and more direct questions on the Written Assignment and thus stands a better chance to access the higher markbands in Criterion B, interactive and receptive skills.

The style of questions chosen by the teacher is important and must be one which allows stronger candidates to access the upper markbands while allowing weaker candidates to feel comfortable throughout.
