Essay on Applying for International Baccalaureate (IB) Diploma Program (DP): Exploring My Future Career Path Essay

I am writing this letter to show my interest in the International Baccalaureate (IB) Diploma Program (DP). I am currently clearing with my high school education, and I feel that the two-year program will help enhance my skills and knowledge that will be helpful in my future career. Joining college has been my dream since I joined high school, and I have been working well to ensure that I am passing my exams. Besides, I chose your institution because of a number of reasons that I feel that I will be able to better achieve my needs.

First, I am impressed with a variety of programs that are being offered in your institution, and thus, this provides me with a wide range of faculties to choose from. This implies that I will not be limited to a few courses like in other institutions. Therefore, this is an indication that the institution has specialized in many courses hence, producing a list of many careers in the job market. Another factor that excites me, in this case, is the fact that the school is equipped not only with materials for learning but good lecturers that engage well with their students to ensure that learning goals have been achieved. During high school, my lecturers were determined to ensure that we were adding to our knowledge through follow up and giving us the right advice. I feel that joining this institution will extend such activities; hence, put me into the focus of my studies.

Also, college is quite different from high school, and therefore I won't hesitate to join your institution because of the different experience that awaits me. In essence, the social interactions between students in college are quite different compared to high school. This is because there are numerous clubs where one is free to join. I have loved music since I was young, and I feel that this will be one of my most preferred clubs when I join the institution. I like playing the guitar, and I do hope that I am going to learn some additional skills that will increase my prowess. Besides, table tennis has been my game all my life since I joined higher grade school. I have been playing it in my high school period, and for sure, I will be glad if the sport is offered in the institution.

Apart from learning activities, I am also interested in meeting new friends from different backgrounds. I like sharing my experience with others and creating new networks that may be of great help in the future. I believe that each person has an impact in this world, and thus, I never underestimate the ability of anyone. Also, this social interaction will be beneficial in my academics because I will be able to join discussions that will aid, especially in group assignments. Besides, I understand that this will improve my presentation skills because I will be likely used to talking to individuals.

Another reason why I am making this application is that I have learned that the institution has one of the best library facilities. In essence, learning materials are important, and no student would wish to join an institution where there are no sufficient materials to enable learning. I am convinced that with such facilities, I will be able to perform my research with ease and with the guidance of my professors. In addition, I will be able to come across a number of research materials by other students; hence, provide me with a picture of what really it entails. The motivation that is associated
