Intercultural Communication Competence Guo-Ming Chen, Xiaodong Dai, 2014-05-02 Intercultural communication competence is an indispensable ability for people to interact appropriately and effectively across nations and regions in the globalized world. Competent intercultural communication enables people to reach mutual understanding as well as reciprocal relationships. In recent decades, considerable progress has been made in the research of intercultural communication competence. However, due to its complexity, many problems remain unanswered and need to be addressed. This book seeks to conceptualize intercultural communication competence from diverse perspectives, explore its reconceptualization in globalization, and investigate its development in cultural contexts and interaction scenarios. A group of leading international scholars in different academic disciplines join to map out a comprehensive picture, providing an in-depth and up-to-date work on intercultural communication competence. The book adopts an interdisciplinary approach and enhances readers' understanding on the concept of intercultural communication competence. It is a useful source for educators, researchers, students, and professionals.

Intercultural Communication and Public Policy Iheanacho, Ngozi, 2016-07-25 As there are different races and people in the world, so there are different cultures, meaning that cultural diversity is inevitable. Through human contact and association, cultures meet. In such meetings, every individual and culture projects itself as worthy and should be held in high esteem. In today's world, it is not encouraging to be ethnocentric, always taking action or inactions that crystallize and

project a feeling of one's own culture or racial superiority. Such attitude obstructs meaningful interaction, human relations, tolerance, and co-operation. Conversely, the skill and ability to tolerate and communicate effectively with people from diverse cultures is a social activity which begins from thought to behaviour in both spoken and non-spoken versions. The book contains 19 essays structured into five parts.

Intercultural Communication Training Richard W. Brislin, Tomoko Yoshida, 1994-03-11. This unique handbook provides an organizational framework for planning and establishing intercultural communication training programs. Drawing from intercultural communication and cross-cultural training, this guide emphasizes those aspects of training that explicitly involve face-to-face communication. The approaches covered apply to any situation where good personal relations and effective communication need to be established with people from different cultural backgrounds.

Intercultural Communication Ling Chen, 2017-04-10. This handbook takes a multi-disciplinary approach to offer a current state-of-art survey of intercultural communication (IC) studies. The chapters aim for conceptual comprehension, theoretical clarity, and empirical understanding with good practical implications. Attention is mostly on face-to-face communication and networked communication facilitated by digital technologies, much less on technically reproduced mass communication. Contributions cover both cross-cultural communication, implicit or explicit comparative works on communication practices across cultures, and intercultural communication works on communication involving parties of diverse cultural backgrounds. Topics include generally histories of IC research, theoretical perspectives, non-western theories, and cultural communication, specifically communication styles, emotions, interpersonal relationships, ethnocentrism, stereotypes, cultural learning, cross-cultural adaptation, and cross-border messages and particular context of conflicts, social change, aging, business, health, and new media. Although the book is prepared for graduate students and academicians, intercultural communication practitioners will also find something useful here.

Global Perspectives on Intercultural Communication Stephen M. Croucher, 2017-06-12. What is intercultural communication? How does perspective shape a person's definition of the key tenets of the term and the field? These are the core questions explored by this accessible global introduction to intercultural communication. Each chapter explores the topic from a different geographic, religious, theoretical, and/or methodological perspective with an emphasis on non-Western approaches, including Buddhist, South American, Muslim, and Chinese perspectives. Featuring the voices of a range of international contributors, this new textbook presents the full breadth of diverse approaches to intercultural communication and showcases the economic, political, and cultural societal needs for and benefits of communicative competence.

Intercultural Communication for Everyday Life John R. Baldwin, Robin R. Means Coleman, Alberto González, Suchitra Shenoy-Packer, 2014-02-03.
