Economics and Literature Çınla Akdere,Christine Baron,2017-09-27 Since the Middle Ages literature has portrayed the economic world in poetry drama stories and novels The complexity of human realities highlights crucial aspects of the economy The nexus linking characters to their economic environment is central in a new genre the economic novel that puts forth economic choices and events to narrate social behavior individual desires and even non economic decisions For many authors literary narration also offers a means to express critical viewpoints about economic development for example in regards to its ecological or social ramifications Conflicts of economic interest have social political and moral causes and consequences This book shows how economic and literary texts deal with similar subjects and explores the ways in which economic ideas and metaphors shape literary texts focusing on the analogies between economic theories and narrative structure in literature and drama This volume also suggests that connecting literature and economics can help us find a common language to voice new critical perspectives on crises and social change Written by an impressive array of experts in their fields Economics and Literature is an important read for those who study history of economic thought economic theory and philosophy as well as literary and critical theory

Energy In The 21st Century (3rd Edition) John R Fanchi,2013-03-26 Many events that affect global energy production and consumption have occurred since the second edition of Energy in the 21st Century appeared in 2011 For example an earthquake and tsunami in Japan led to the disruption of the Fukushima nuclear facility and a global re examination of the safety of the nuclear industry Oil and natural gas prices continue to be volatile and the demand for energy has been affected by the global economy The third edition updates data and the discussion of recent events Energy in the 21st Century has been used as the text for an introductory energy course for the general college student population Based on student feedback we have included several features that enhance the value of the third edition as a textbook In particular we have included learning objectives at the beginning of each chapter end of chapter activities a comprehensive index and a glossary Points to Ponder are abbreviated as P2P in the Learning Objectives boxes and are provided throughout the text They are designed to encourage the reader to consider the material from different perspectives

Energy in the 21st Century John R. Fanchi,2011 Energy may be the most important factor that will influence the shape of society in the 21st century The cost and availability of energy significantly impacts our quality of life and the health of national economies This book examines the energy sources that play a vital role in society

Energy In The 21st Century (4th Edition) John R Fanchi,Christopher J Fanchi,2016-09-16 Energy in the 21st Century is a valuable source of information for students decision makers opinion leaders and the general public Oil and natural gas price volatility continue to affect both the supply and demand for energy Advances in other technologies such as nuclear wind solar and tidal technology are altering the comparative economics of competing energy sources New government policies are changing the landscape of the global energy marketplace From our reliance on fossil fuels to the

quest for new sources of energy Energy in the 21st Century provides a fact based analysis of the most prominent energy issues of our time The fourth edition updates data and includes more discussion of recent advances Some of the highlights of the fourth edition are expanded discussion of climate change and anthropogenic climate change the 2015 COP21 Paris Agreement on Climate Change nuclear fusion reactor prototypes tokamak ITER and stellarator W7 X advances in solar thermal and solar photovoltaic power plants space based solar power transparent photovoltaic cells and hybrid solar wind technology tidal and wave energy converters oil from algae the EU Supergrid the Goldilocks Policy for energy transition and the Grand Energy Bargain Energy in the 21st Century has been used as the text for the general college student population as well as energy overview for MBA students Pedagogical material includes learning objectives at the beginning of each chapter end of chapter activities a comprehensive index a glossary and an Appendix to help with converting units Points to Ponder are provided throughout the text and are designed to encourage the reader to consider material from different perspectives Video introduction Energy in the 21st Century 4th edition Press Release Energy in the 21st Century

Social Structure Jonathan Eastwood,2024-12-03 Social structure is arguably the central concept of sociology and in recent years a much wider public has taken up with fresh vigor the sociological idea that persistent inequalities are rooted in social structures Yet there seem to be as many definitions of the term as there are sociologists and we often struggle to articulate accessible yet precise accounts of structures that can guide empirical research and other kinds of action Jonathan Eastwood offers a set of pragmatic strategies for thinking about social structures emphasizing ways in which we can approach them as complex lacings of relationships representations and rules He then teases out a variety of implications of these strategies for qualitative and quantitative research the analysis of social problems and the implementation of social policies Written for advanced undergraduate and graduate students as well as fellow scholars this insightful book contributes to our understanding of this fundamental and dynamic ingredient of social life

Dynamic Incentives for Optimal Control of Competitive Power Systems Kölsch, Lukas,2022-10-11 This work presents a real time dynamic pricing framework for future electricity markets Deduced by first principles analysis of physical economic and communication constraints within the power system the proposed feedback control mechanism ensures both closed loop system stability and economic efficiency at any given time The resulting price signals are able to incentivize competitive market participants to eliminate spatio temporal shortages in power supply quickly and purposively

Redistributing Happiness Hiroshi Ono,Kristen Schultz Lee,2016-08-29 Drawing on international comparisons of data on happiness this book offers both general and academic audiences a simple deep and honest answer to the timeless question What makes people happy The conventional recipe for happiness has long included money marriage and parenthood as basic ingredients What research is telling us however is that these elements don t relate to happiness in quite the way we might expect them to Redistributing Happiness How Social Policies Shape Life Satisfaction explores the factors that determine life satisfaction and demonstrate how an individual s

happiness is largely shaped by social context by where they live and local policies norms and attitudes about religious beliefs economic and political security income redistribution and more The book begins with a review of the contributions of other disciplines such as economics psychology and political science to common explanations of the sources of happiness Next the authors offer an international comparison based on their own research on what makes people happy taking into consideration factors such as marriage children money and job status Most importantly special attention is paid to how social policies and social context directly affect people s happiness All readers high school age and up will enjoy the book s comprehensive and fascinating answer to the happiness question because of how the authors connect an individual s experience to the broader environment of the social system and situation in which that person resides
