Rethinking the Case Study in International Business and Management Research Rebecca Marschan-Piekkari, Catherine Welch, 2011-01-01 This important and original book places the case study in international business research in its historical context critically evaluates current case study practices in the field and proposes a more pluralistic future for case research within international business and international management research While the case study is the most popular qualitative research strategy in the field only a narrow selection of possible approaches is currently used IB and IM researchers typically rely on a case study approach that could be characterized as qualitative positivism The editors and contributors look beyond this disciplinary convention and encourage greater pluralism in IB and IM case research Their key argument is that increased awareness of prevailing disciplinary conventions and their limitations increases the potential for methodological innovation and versatility in case research The contributions provide critical novel and innovative perspectives on the case study in IB and IM research The book offers inspiration to case authors and an authoritative methodological reference for those publishing and reviewing case research It will also be highly regarded by postgraduate and doctoral students in IB and IM as well as both qualitative and quantitative researchers in the field

collection of contributions the Research Handbook of Expatriates provides a nuanced and up to date discussion of expatriates. Theoretically broad and groundbreaking it offers important and contemporary insights into emerging areas of research warranting future consideration. Drawing upon a range of perspectives from the field's most distinguished academics, contributions review the history of the literature in relation to expatriates from the development of the expatriate construct through to the current state of research on business expatriates. Subsequent chapters progress into detailed examinations of the various types of business expatriates including LGBT self-initiated expatriates, female assignees, inpatriates, international business travellers and commuters and millennials. Other themes include expatriate performance, adjustment, expatriates to and from developing countries, global talent management and expatriates safety and security. The Research Handbook also covers expatriates in diverse communities such as education, military, missionary, sports and Aidland and provides additional commentaries relating to methodological issues, research with practitioners, case studies, biculturals and ATCKs and global families. The Research Handbook concludes with publishing advice for PhD and early career researchers. Stimulating insightful new areas of study, this collection is a must read for academics and scholars in the field of expatriate research, international management, global human resource management and business administration. It also offers a wealth of guidance for executives and recruiters along with expatriates and professionals who may expatriate.

Marketing Cases from Emerging Markets Dilip Mutum, Sanjit Kumar Roy, Eva Kipnis, 2013-09-03. Despite the fact that experts acknowledge the importance of the emerging markets, there is a dearth of real case studies specially focussed on marketing issues. This case study book addresses that need. It is also important and timely in providing a framework for instructors and researchers both academic and industry to understand the dynamics occurring in emerging markets. This book is composed of long and short real cases with varying complexity in different sectors including airlines, hotel, fashion etc. These will cover issues which are unique to the emerging markets including the BRIC countries to understand the dynamics occurring in these countries. With its case studies collection of questions and real life marketing examples, this book offers unique benefits to marketing students and educators across the world. A must have for every marketing course module.
