Experimentalism and Sociology Tanja Bogusz,2022-05-23 This book is based on the understanding that the diversity and heterogeneity of science and society are not only issue of critique but engender experimental forms of collaboration Building on John Dewey's experimental theory of knowledge and inquiry practice theory science and technology studies and the anthropology of nature the book offers a trenchant redefinition of a present focused sociology as a science of experience in the spirit of experimentalism Crisis instead of being a mere problem is understood as the baseline for creativity and innovation Committed to the experimental pursuit the book provides an experience based methodological approach for an inter and trans disciplinary sociology Finally it argues for a globalized and transformative sociological outreach beyond established epistemic and national borders This book is of interest to sociologists and other social scientists pursuing experimentalism in theory method and or practice *Deconstructing Contemporary Chinese Art* Paul Gladston,2015-08-21 The book presents a range of articles and discussions that offer critical insights into the development of contemporary Chinese art both within China and internationally It brings together selected writings both published and unpublished by Paul Gladston one of the foremost international scholars on contemporary Chinese art The articles are based on extensive first hand research much of which was carried out during an extended residence in China between 2005 and 2010 In contrast to many other writers on contemporary Chinese art Gladston analyses his subject with specific reference to the concerns of critical theory In his writings he consistently argues for a polylogic multi voiced approach to research and analysis grounded in painstaking attention to local regional and international conditions of artistic production reception and display The Polish-Lithuanian State, 1386-1795 Daniel Z. Stone,2014-07-01 For four centuries the Polish Lithuanian state encompassed a major geographic region comparable to present day Poland Lithuania Belarus Ukraine Russia Latvia Estonia and Romania Governed by a constitutional monarchy that offered the numerous nobility extensive civil and political rights it enjoyed unusual domestic tranquility for its military strength kept most enemies at bay until the mid seventeenth century and the country generally avoided civil wars Selling grain and timber to western Europe helped make it exceptionally wealthy for much of the period The Polish Lithuanian State 1386 1795 is the first account in English devoted specifically to this

important era It takes a regional rather than a national approach considering the internal development of the Ukrainian Jewish Lithuanian and Prussian German nations that coexisted with the Poles in this multinational state Presenting Jewish history also clarifies urban history because Jews lived in the unincorporated private cities and suburbs which historians have overlooked in favor of incorporated royal cities In the seventeenth and eighteenth centuries the private cities and suburbs often thrived while the inner cities decayed The book also traces the institutional development of the Roman Catholic Church in Poland Lithuania one of the few European states to escape bloody religious conflict during the Reformation and Counter Reformation Both seasoned historians and general readers will appreciate the many excellent brief biographies that advance the narrative and illuminate the subject matter of this comprehensive and absorbing volume *The God Who Saves David* W. Congdon, 2016-09-08 Christian universalism has been explored in its biblical philosophical and historical dimensions For the first time *The God Who Saves* explores it in systematic theological perspective In doing so it also offers a fresh take on universal salvation one that is postmetaphysical existential and hermeneutically critical The result is a constructive account of soteriology that does justice to both the universal scope of divine grace and the historicity of human existence In *The God Who Saves David* W Congdon orients theology systematically around the New Testament witness to the apocalyptic inbreaking of God's reign The result is a consistently soteriocentric theology Building on the insights of Rudolf Bultmann Ernst Kasemann Eberhard Jungel and J Louis Martyn he interprets the saving act of God as the eschatological event that crucifies the old cosmos in Christ Human beings participate in salvation through their unconscious existential cocrucifixion in which each person is interrupted by God and placed outside of himself or herself Both academically rigorous and pastorally sensitive *The God Who Saves* opens up new possibilities for understanding not only what salvation is but also who the God who brings about our salvation is Here is an interdisciplinary exercise in dogmatic theology for the twenty first century
