Mobile Security and Privacy Man Ho Au, Raymond Choo, 2016-09-14 Mobile Security and Privacy Advances Challenges and Future Research Directions provides the first truly holistic view of leading edge mobile security research from Dr Man Ho Au and Dr Raymond Choo leading researchers in mobile security

Mobile devices and apps have become part of everyday life in both developed and developing countries. As with most evolving technologies, mobile devices and mobile apps can be used for criminal exploitation. Along with the increased use of mobile devices and apps to access and store sensitive personally identifiable information (PII), there has come an increasing need for the community to have a better understanding of the associated security and privacy risks. Drawing upon the expertise of world renowned researchers and experts, this volume comprehensively discusses a range of mobile security and privacy topics from research applied and international perspectives while aligning technical security implementations with the most recent developments in government, legal and international environments. The book does not focus on vendor specific solutions, instead providing a complete presentation of forward looking research in all areas of mobile security. The book will enable practitioners to learn about upcoming trends, scientists to share new directions in research, and government and industry decision makers to prepare for major strategic decisions regarding implementation of mobile technology security and privacy. In addition to the state of the art research advances, this book also discusses prospective future research topics and open challenges. Presents the most current and leading edge research on mobile security and privacy featuring a panel of top experts in the field. Provides a strategic and international overview of the security issues surrounding mobile technologies. Covers key technical topics and provides readers with a complete understanding of the most current research findings along with future research directions and challenges. Enables practitioners to learn about upcoming trends, scientists to share new directions in research, and government and industry decision makers to prepare for major strategic decisions regarding the implementation of mobile technology security and privacy initiatives.

Evaluation of Novel Approaches to Software Engineering Leszek A. Maciaszek, Joaquim Filipe, 2016-02-13 This book constitutes the thoroughly refereed proceedings of the 10th International Conference on Evaluation of Novel Approaches to Software Engineering (ENASE 2015) held in Barcelona, Spain, in April 2015. The 10 full papers presented were carefully reviewed and selected from 74 submissions. The papers reflect a growing effort to increase the dissemination of new results among researchers and professionals related to evaluation of novel approaches to software engineering. By comparing novel approaches with established traditional practices and by evaluating them against software quality criteria, the ENASE conferences advance knowledge and research in software engineering, identify most hopeful trends, and propose new directions for consideration by researchers and practitioners involved in large scale software development and integration.

Research Challenges in Information Science João Araújo, Jose Luis de la Vara, Maribel Yasmina Santos, Saïd Assar, 2024-05-03 This book constitutes the proceedings of the 18th International Conference on Research Challenges in Information Sciences (RCIS 2024) which took place in Guimarães, Portugal, during May 2024. The scope of RCIS is summarized by the thematic areas of information systems and their engineering, user oriented approaches, data and information management, business process management, domain specific information systems engineering, data science, information infrastructures, and reflective research and practice. The

25 full papers 12 Forum and 5 Doctoral Consortium papers included in these proceedings were carefully reviewed and selected from 100 submissions They were organized in topical sections as follows Part I Data and information management conceptual modelling and ontologies requirements and architecture business process management data and process science security sustainability evaluation and experience studies Part II Forum papers doctoral consortium papers **Moody's**
