Planning Your Wedding Sucks Joanne Kimes, 2010-11-18 Bling Flowers Tulle The three things that every little girl dreams of when she pictures her wedding day What she doesn't consider is the stuff of nightmares Overdrawn checking accounts Drunk relatives The seating chart that looks like a road map In this book Joanne Kimes and Elena Donovan Mauer expose the tedious and often traumatic tasks that really go into pulling off a wedding From dealing with overbearing mothers in law and making time for their lovable but clueless fiancés to suffering through endless alterations and meetings with the con artists known as vendors there's a lot that you need to know After all a wedding is supposed to be something you look forward to not something you have to endure before the honeymoon Armed with Kimes' trademark no holds barred humor Donovan Mauer's bridal industry know how and copious amounts of wine you'll get through the stress of planning your weddings with style humor and grace Or at the very least without beating members of the wedding party with that 500 bouquet Everything I Need to Know I Learned from Dungeons & Dragons Shelly Mazzanoble, 2011-09-06 With tongue in cheek humor the creator of the award winning Confessions of a Part Time Sorceress takes on the self help section proving that the benefits of the Dungeons Dragons game goes far beyond simple entertainment **Nothing Created Everything** Ray Comfort, 2009 Richard Dawkins is arguably the modern poster boy for Charles Darwin However a key difference radically separates the two men Darwin believed in the existence of God and calls God the Creator seven times in The Origin of Species Dawkins in contrast claims The more you understand the significance of evolution the more you are pushed towards atheism It seems Professor Dawkins thinks Charles Darwin didn't understand his own theory Just months after the 2009 discovery of the supposed missing link author Ray Comfort turns the tables on evolutionists In Nothing Created Everything he examines the evidence for evolution and shows it is lacking He demonstrates that when it comes to explaining how life began atheists and evolutionists offer faith not facts Ironically atheists insist nothing created everything a scientific impossibility In a conversational tone Comfort speaks to both atheists and believers and urges this discussion be based on hard evidence And when it is he insists people will realize evolution is a theory that can't be tested or measured and therefore can't be scientific
