Egan draws on both his industry and academic background to explain the why as well as the how of marketing communications. The book takes an industry driven approach which provides all the theories in the context of application and from a real world perspective. It also uses accessible straight forward language and all content is supported by a collection of learning features. New to this edition: New chapters on Digital Marketing and Analytics and Social Media Marketing. Strong focus on marketing communications analytics. Update of examples, case studies and references. Online resources for both instructors and students complement the book. These include PowerPoint slides, an Instructors manual, MCQs with answers for instructors, a glossary, flashcards, links to relevant websites and videos. Suitable for marketing students taking a Marketing Communications module as part of their Marketing degree.

The Talent Industry Raymond Boyle, 2018-07-28. This book explores how the digital multiplatform delivery of television is affecting the role performed by cultural intermediaries responsible for talent identification and development. Drawing on original research from key stakeholders across the television and social video sectors such as broadcasters, commissioning editors and talent agents, it investigates whether the process of digitization is offering new pathways to capture and nurture a diverse talent base within the UK television industry. It also provides an in depth study of how the term talent has historically been interpreted and understood within the UK television industry through the BBC and commercial PSBs such as ITV and Channel 4. The Talent Industry investigates how the traditional gatekeepers of talent in television are changing and examines the key role of talent agencies in managing and promoting contemporary on and off screen talent in the digital age.

Special Report: E-sports & Gaming, Saudi Arabia's e sports gaming sector is open for business. The government has high hopes for the sector which is growing exponentially, boosted by the country's young savvy population. This report features interviews, news and analysis on the latest developments in this exciting area.

Share This Too CIPR (Chartered Institute of Public Relations), 2013-08-06. The follow up to Share This: The Social Media Handbook for PR Professionals. Share This is a practical handbook to the changes taking place in the media and was conceived and written by 24 public relations practitioners using many of the social tools and techniques that it addresses. The book covered the media and public relations industry, planning, social networks, online media relations, monitoring and measurement skills, industry change and the future of the industry. Share This Too is also a pragmatic guide for anyone that wants to continue working in public relations. It is a larger book with more than 30 contributors including all of those from the highly successful first book and many of whom are successful authors in their own right. It probes more deeply into the subject and is divided into seven sections: The future of public relations, Audiences and online habits, Conversations, New channels, new connections, Professional practice, Business change and opportunities for the public relations industry, Future proofing the public relations industry. The content entirely complements the first book rather than merely updates it. It delves deeply into what is current in the theory, delivery and evaluation of 21st century public relations and organisational communication.
