Brown,Theresa Jarnagi Enos,2005-04-11 This handbook offers wisdom and guidance from experienced college writing program administrators It is intended for WPAs at all levels of experience [Portfolio Development and the Assessment of Prior Learning](#) Elana Michelson,Alan Mandell,2023-08-11 For over thirty years portfolios have been used to help adult learners gain recognition for their prior learning and take greater control of their educational experiences The portfolio has become a distinctive means of assessing such learning serving as a meaningful alternative to conventional papers and standardized testing

Portfolio Development and the Assessment of Prior Learning Perspectives Models and Practices provides a primer of flexible approaches to shaping and conducting portfolio development courses. It offers practitioners in the field an extensive range of model assignments, readings, and classroom activities, each organized around a specific theme: Academic Orientation, The Meaning of Education, Personal Exploration, Learning from the Outsider Within, The World of Work and Careers, and Dimensions of Expertise. Twelve case studies by practitioners in the field then show how academics in the US and around the English speaking world have adapted the portfolio to changing circumstances in order to deliver academically rich educational services for adults. These case studies highlight portfolio development in the context of web based instruction, changing institutional imperatives, service to historically disenfranchised groups, partnerships with industry, and cross institutional cooperation. In addition to serving as a valuable hands on resource for practitioners, *Portfolio Development and the Assessment of Prior Learning* locates portfolios and assessment in a broad social and intellectual context. Thus the authors also offer an historical overview of the usefulness of portfolios in the assessment of prior learning and then consider their use in the future given current trends in higher education for adults. The book explores the implications of a changing educational landscape in which new student populations, budgetary pressures, and understandings of knowledge both enrich and challenge student centered approaches such as portfolios. The approaches and case studies are not only valuable to adult educators but equally to faculty in higher education concerned with the development of competency and outcomes based assessment.

Collaborative Learning and Writing Kathleen M. Hunzer, 2014-01-10 Although most writing instructors know the benefits of collaborative learning and writing in college writing classes, many remain unsure how to implement collaborative techniques successfully in the classroom. This collection provides a diversity of voices that address the how to's of collaborative learning and writing by addressing key concerns about the process. Fresh essays consider the importance of collaborative work and peer review, the best ways to select groups in classes, integration of collaborative learning techniques into electronic environments, whether group learning and writing are appropriate for all writing classes, and ways special populations can benefit from collaborative activities. Despite its challenges, collaborative learning can prove remarkably effective, and this study provides the advice to make it work smoothly and successfully.

Portfolio Assessment for the Teaching and Learning of Writing Ricky Lam, 2018-06-26 This book provides teachers, instructors, scholars, and administrators with a practical guide to implement portfolio assessment of writing in their work contexts. Unlike most existing volumes which underscore theory building, it describes and discusses several key issues concerning how portfolio assessment can be carried out in authentic classrooms with a focus on its processes, reflective components, task types, and design, scoring methods, and actionable recommendations.

assessment and they offer a dozen appendices of practical samples and models for a range of common assessment needs. Because there are numerous resources available to assist faculty in assessing the writing of individual students in particular classrooms, *A Guide to College Writing Assessment* focuses on approaches to the kinds of assessment that typically happen outside of individual classrooms: placement evaluation, exit examination, programmatic assessment, and faculty evaluation. Most of all, the argument of this book is that creating the conditions for meaningful college writing assessment hinges not only on understanding the history and theories informing assessment practice but also on composition programs availing themselves of the full range of available assessment practices.

The St. Martin's Guide to Writing Rise B. Axelrod, Charles R. Cooper, 2010-01-26. This textbook provides instruction in college level rhetoric and writing. It offers readings, a research manual, a handbook, and supports a range of approaches to teaching and learning, including collaboration, visual rhetoric, personal writing, writing about literature, writing in the community and the workplace, field research, portfolios, oral presentations, essay exams, and ESL. It contains step by step guides to writing specific kinds of essays: remembering events, writing profiles, explaining a concept, finding common ground, arguing a position, proposing a solution, justifying an evaluation, speculating about causes, and interpreting stories. Because so much college writing requires strong argumentation skills, four of the assignment chapters focus on argumentative writing, and a separate strategies chapter covers theses, reasons, and support, counterarguments, and logical fallacies. Three full chapters on research give students useful strategies not only for conducting field, library, and Internet research but also for evaluating sources, deciding whether to quote, paraphrase, or summarize, avoiding plagiarism, and documenting sources. The authors have included 39 readings by well known authors and various fresh voices, including 12 students, providing well written examples of the different types of essays and papers that students might be asked to complete.
