The Caribbean Hurricane Experience

Hurricanes are a fact of life in the Caribbean (See [Appendix I](#)). Within the past nine years, from 1988 through 1997, several hurricanes have unleashed their fury on the islands of the Caribbean. Hurricanes David in 1979, Allen in 1980, Gilbert in 1988, Hugo in 1989 and Luis and Marilyn in 1995 caused significant damage to hotels in Dominica, St. Lucia, Jamaica, Montserrat, Antigua,

Disaster Upon Disaster Susanna M. Hoffma, Roberto E. Barrios, 2019-10-03 A consistent problem that confronts disaster reduction is the disjunction between academic and expert knowledge and policies and practices of agencies mandated to deal with the concern Although a great deal of knowledge has been acquired regarding many aspects of disasters such as driving factors risk construction complexity of resettlement and importance of peoples culture very little has become protocol and procedure Disaster Upon Disaster illuminates the numerous disjunctions between the suppositions realities agendas and executions in the field goes on to detail contingencies predicaments old and new plights and finally advances solutions toward greatly improved outcomes

Hurst, 1989 **Performance, Trauma and Puerto Rico in Musical Theatre** Colleen Rua, 2023-08-11 This study positions four musicals and their associated artists as mobilizers of defiant joy in relation to trauma and healing in Puerto Rico This book argues that the historical trajectory of these musicals has formed a canon of works that have reiterated resisted or transformed experiences of trauma through linguistic ritual and geographic interventions These traumas may be disaster related migrant related colonial or patriarchal Bilingualism and translation ritual action and geographic space engage moments of trauma natural disaster incarceration death and healing community celebration grieving emancipation in these works The musicals considered are West Side Story 1957 2009 2019 The Capeman 1998 In the Heights 2008 and Hamilton 2015 Central to this argument is that each of the musicals discussed is tied to Puerto Rico either through the representation of Puerto Rican characters and stories or through the Puerto Rican positionality of its creators The author moves beyond the musicals to consider Lin Manuel Miranda as an embodied site of healing that has been met with controversy as well as post Hurricane Maria relief efforts led by Miranda on the island and from a distance In each of the works discussed acts of belonging shape notions of survivorship and witness This book also opens a dialogue between these musicals and the work of island based artists Y no hab a luz that has served as sites of first response to disaster This book will be of interest to students and scholars in Latinx Theatre Musical Theatre and Translation studies [THE INDEPENDENT AND DIVIDED AMERICAS](#) Ruben Ygua, 2025-04-09 Traditional methods of studying the past have always given greater importance to nationalist religious and moral interests which subordinated the historical fact to the System point of view The time has come to simplify and show respect for our ancestors striving to know what really

happened in the past and not just what they want to inform us about After so many years of studying History I came to the conclusion that the best study system is through an impartial objective Chronology that just put each event in its exact place in time revealing History without manipulation This Chronology contains not only purely political facts such as the foundation of cities the birth of kingdoms and empires scientific and geographical discoveries natural disasters and epidemics it also includes information on the most different fields of human activity chemistry astronomy geography mathematics and so on In parallel the chronology is complemented by data that do not belong to a specific date but to an entire epoch they are each society generalities curiosities customs the religion of each civilization inventions or discoveries that cannot be placed in an exact date etc The result of all this set is one of the most complete chronologies within its reach periodically updated with the latest archaeological and scientific discoveries and that transforms the reader into an eyewitness of the past understanding the relation of geographically distant facts to each other but closely connected in time and influencing unexpected consequences This is something that traditional history has generally ignored when it was not usable A work of this magnitude could not be published in a single book so I have divided it into several collections and the Spanish originals are being translated into French English Italian and Portuguese The chronology goes from prehistory to the present day year by year as far as possible For those who prefer a deeper and more detailed study I have prepared a second chronology day by day this for now covers from 1789 to 1946 divided into five collections
