

Orifice and Free Jet Flow Experiment

For this experiment, you will need the Orifice and Free Jet Flow module and graph paper.

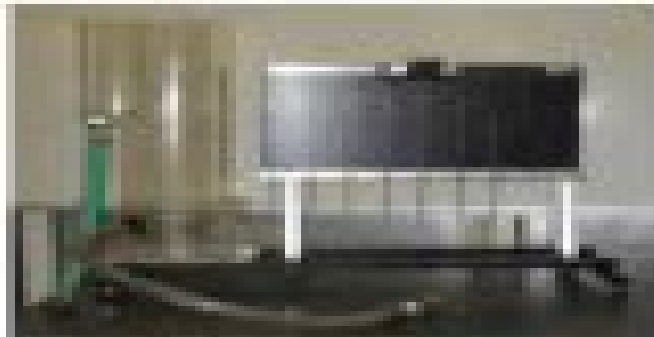

Figure 1: Orifice and Free Jet Flow Module

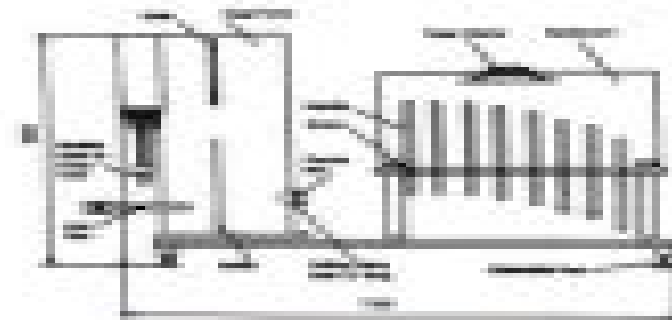

Figure 2: Orifice and Jet Apparatus

Procedure

1. Remove the Orifice and Free Jet Flow module from the 2000 module storage bay.
2. Place the Orifice and Free Jet module on one of the Hydraulics benches located on the 2B level of the MC near the door of the Instruction Studio with the head tank on your left side.
3. Ensure that the green hose on the left is tightly secured to the head tank and throughout the bench.
4. Connect the inlet quick release connector (the hose attached to the base of the head tank) to the inlet to the bench basin by pushing down on the ring, inserting the hose, and releasing the ring. Be sure the connection has leaked and the ball bearings are not visible (it may take some time to ensure the connection is secure).
5. Secure the smallest orifice plate with O-rings to the head tank using the thumb screws.
