*Qatar 1975/76-2019* Anthony Axon, Susan Hewitt, 2020-09-25 The fourth in this series the Contemporary Archive of the Islamic World CAIW this title draws on the resources of Cambridge based World of Information which since 1975 has followed the politics and economics of the region Qatar's documented history begins in the mid 19th Century Its location established it as having close if differing links to Bahrain Kuwait and Saudi Arabia Notionally under Ottoman rule Qatar did not become a de facto protectorate of Great Britain until some time after the end of the Ottoman empire The discovery of oil in Qatar happened later than was the case with its neighbours However the discovery of substantial oil deposits and later of enormous gas reserves changed Qatar beyond recognition allowing it to claim in the 1980s that its inhabitants were the richest people on earth Still a semi feudal monarchy it gained full independence in 1971 but was initially considered to be the least developed state in the Gulf By the 21st century many close neighbours felt that in a number of respects Qatar was becoming an unreliable partner To the extent that in 2017 a number of its fellow Gulf Cooperation Council GCC members as well as other states notably Egypt broke off diplomatic relations **The Gulf Cooperation Council; ... **Qatar and the 2022 FIFA World Cup** Paul Michael Brannagan, Danyel Reiche, 2022-03-28 This book offers the first full academic analysis of the Qatar 2022 FIFA World Cup Adopting an international relations perspective the authors critically interrogate the politics and controversy that has surrounded arguably the most controversial sports event ever In doing so this text offers up an imperative examination of Qatar's desired objectives through their investment in global sport and sports events as well as provides readers with an academic explanation on why major event hosts such as Qatar receive so much international scrutiny in the pre event stage of the event hosting process On the back of this international scrutiny this text also provides the first full analysis on how such negative scrutiny has forced Qatar to implement various social political changes at home *Islamic Ecumene* David S. Powers, Eric Tagliacozzo, 2023-11-15 The essays in *Islamic Ecumene* address the ways in which Muslims from Morocco to Indonesia and from sub Saharan Africa to the steppes of Uzbekistan are members of a broad cultural unit Although the Muslim inhabitants of these lands speak dozens of languages represent numerous ethnic groups and practice diverse forms of Islam they are united by shared practices and worldviews shaped by religious identity To highlight these commonalities the co editors invited a team of scholars from a wide range of disciplines to examine Muslim societies in comparative and interconnected ways The result is a book that showcases ethics education architecture the arts modernization political resistance marriage divorce and death rituals Using the insights and methods of historians anthropologists literary critics art historians political scientists and sociologists *Islamic Ecumene* seeks to understand Islamic identity as a dynamic phenomenon that is reflected in the multivalent practices of the more than one billion people across the planet who identify as Muslims *Arab Migrant Communities in the GCC* Zahra Babar, 2017-07-01 Long a recipient of migrants from its

surrounding areas the Arabian Peninsula today comprises a mosaic of communities of diverse ethnic cultural linguistic and religious origins For decades while the Gulf Cooperation Council GCC states have housed and employed groups of migrants coming and going from Asia Africa and the West they have also served as home to the older more settled communities that have come from neighbouring Arab states Arab Migrant Communities in the GCC is a unique original work of scholarship based on in depth fieldwork shedding light on a topic both highly relevant and woefully understudied It focuses on the earlier community of Arab immigrants within the GCC who are among the politically most significant and sensitive of migrant groups in the region Through its multi disciplinary lenses of social history cultural studies economics and political science the book presents original data and provides analyses of the settlement and continued evolution of migrant Arab communities across the GCC their work in and assimilation within host societies and labour markets and their political economic social and cultural significance both to the GCC region and to their countries of origin

*Qatar* Lisa McCoy, 2014-10-21 Throughout history tiny Qatar pronounced cutter or gutter has at times been overlooked or forgotten Today however this small country located on a peninsula that juts into the Arabian Gulf has become an important strategic partner of the United States In recent years Qatar has gained international stature in part because of its vast reserves of oil and natural gas Since coming to power in 1995 Sheikh Hamad bin Khalifa al Thani has made Qatar one of the more liberal Gulf states Though the country is by no means a democracy in the Western sense Qatar appears to be moving slowly in that direction One day Qatar may provide a successful example of democracy for the Arab world Discusses the geography history economy government religion people foreign relations and communities of Qatar *Regional Economic Outlook, October 2014, Middle East and Central Asia*, International Monetary Fund. Middle East and Central Asia Dept., 2014-10-27 This issue discusses economic developments in the Middle East North Africa Afghanistan and Pakistan MENAP which continue to reflect the diversity of conditions prevailing across the region Most high income oil exporters primarily in the GCC continue to record steady growth and solid economic and financial fundamentals albeit with medium term challenges that need to be addressed In contrast other countries Iraq Libya and Syria are mired in conflicts with not only humanitarian but also economic consequences And yet other countries mostly oil importers are making continued but uneven progress in advancing their economic agendas often in tandem with political transitions and amidst difficult social conditions In most of these countries without extensive economic and structural reforms economic prospects for the medium term remain insufficient to reduce high unemployment and improve living standards

**Qatar** International Monetary Fund. Middle East and Central Asia Dept., 2013-01-16 Qatar has recently taken steps toward introducing a medium term budget framework MTBF to enhance the predictability of spending decisions in the country However implementing medium term fiscal planning requires formal procedural fiscal rules and parallel efforts to enhance the credibility of the annual budget Given Qatar's significant exposure to hydrocarbon price movements and its long lasting hydrocarbon reserves

such fiscal rules would need a certain degree of flexibility and at the same time should be set to maintain consistency with long term fiscal sustainability
