Nature-Culture and Environmental History Research Jocelyn Thorpe, Stephanie Rutherford, L. Anders

Sandberg, 2016-11-10 This book examines the challenges and possibilities of conducting cultural environmental history research today. Disciplinary commitments certainly influence the questions scholars ask and the ways they seek out answers but some methodological challenges go beyond the boundaries of any one discipline. The book examines how to account for the fact that humans are not the only actors in history yet dominate archival records, how to attend to the non visual senses when traditional sources offer only a two dimensional non sensory version of the past, how to decolonize research in and beyond the archives and how effectively to use sources and means of communication made available in the digital age. This book will be a valuable resource for those interested in environmental history and politics, sustainable development and historical geography. *Kiplinger's Personal Finance*, 2009 Lemon-Aid Used Cars and Trucks 2012-2013 Phil

The all new Lemon Aid Used Cars and Trucks 2012-2013 has the answers including More vehicles rated with some redesigned models that don't perform as well as previous iterations, downrated More roof crash worthiness ratings along with an expanded cross border shopping guide. A revised summary of safety and performance related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst beaters on the market.
