Material Theories Elena Chestnova, 2022-06-19 Material Theories takes a radically new approach to well established thinking on nineteenth century architecture and design by investigating Gottfried Semper s classic ideas about dressing metamorphosis of material and cultural development culminating in his two volume publication Style This book demonstrates how Semper s theories crystallised among his encounters with material things of the late 1840s and early 1850s It examines several discursive frameworks and phenomena which shaped the attitude to artefacts in Europe in the mid nineteenth century and which were specifically pertinent to Semper s evolution archaeology and antiquarianism the domestic interior print media collections and the embodied relationship between the designer and their work For the first time this book examines the construction of a design theory not only as an intellectual endeavour but also as a process of confrontation with material things It employs recent approaches to material culture in particular Thing Theory in order to show that Semper s artefact references

constituted his ideas rather than simply giving impetus to them It will be an important investigation for academics and researchers interested in interior design history as well as scholars of material culture and history of design theory
