Basu, Victoria Miroshnik, 2019-07-23 Drawing on numerous

Japanese and non Japanese primary and secondary sources this highly informative book analyzes all aspects both domestic and international of foreign direct investment made by Japan's multinational corporations in Asia the European Union and the U S It covers the critical period from 1970 the point at which Japan's economy reached a level of global importance through 1998 the nadir of Japan's economic woes The book offers numerous perspectives to explain the changing characteristics of Japan's FDI practices over the period The text is well supported by some 50 figures and data tables compiled from both Japanese government ministries and multinational corporations

"Rich Nation, Strong Army" Richard J. Samuels, 1994 From 1868 until 1945 the Japanese economy was fired by the development of technology to enhance national security the rallying cry Rich Nation Strong Army accompanied the expanded military spending and aggressive foreign policy that led to the disasters of the War in the Pacific Postwar economic planners reversed the assumptions that had driven Japan's industrialization Samuels shows promoting instead the development of commercial technology and infrastructure By valuing process improvements as much as product innovation the modern Japanese system has built up the national capacity to innovate while ensuring that technological advances have been diffused broadly through industries such as aerospace that

have both civilian and military applications
