Forthcoming Books Rose Army,2003 **The Art of Status** Jelena Subotic,Professor of Political Science Jelena Subotic,2025-10-09 An illuminating exploration of the relationship between the restitution of looted art global status and the international construction of national cultural heritage Why is art restitution a matter of politics How does the artwork displayed in national museums reflect the international status of the state that owns it Why do some states agree to return looted art and others resist National art collections have long been a way for states to compete with each other for status prestige and cultural worth in international society In many former imperial nations however these collections include art looted during imperial expansions and colonial occupations While this was once a sign of high international standing the markers of such status particularly in the context of art have since significantly changed A new international legal and normative architecture governing art provenance developed after World War II and became institutionalized in the 1990s and 2000s Since then there have been national and global social movements demanding the return of looted art This shift has established not only that looting is wrong but more importantly that restitution is morally right As a result of this reframing of what it means to own art an artifact s historical provenance has become a core element of its value and the search for provenance and demands for restitution a direct threat to state status The same objects that granted states high international status now threaten to provoke status decline In *The Art of Status* Jelena Subotic examines this relationship between the restitution of looted art and international status with a focus on the Parthenon Elgin Marbles the Benin Bronzes and a collection of paintings looted during the Holocaust that are now housed at the Serbian National Museum Subotic tells the story of these

artworks how they were looted how they ended up on display in national museums and how the art restitution disputes have unfolded While these cases are different in terms of their historical context of looting and ownership claims the movements for their restitution and resistance to it illustrate the larger questions of how national cultural heritage is internationally constructed and how it serves states desire for international status and prestige An in depth and nuanced account of art restitution disputes The Art of Status illuminates the shifting political significance of art on the international stage from ownership to restitution *The Oxford Handbook of Media Psychology* Karen E. Shackleford, Nicholas D.

Bowman, 2025-07-16 The 21st century has seen the use of media technologies become thoroughly integrated with our daily lives most of us feel lost without our mobile device in hand check social media multiple times a day and turn to digital entertainment in our free time This shift has spurred the emergence of media psychology a multidisciplinary approach to studying how people use process and are affected by the media and technology they engage every day This second edition of *The Oxford Handbook of Media Psychology* brings together leading experts in the field to update what is a rapidly evolving area of study Returning contributors expand chapters on the history and progress of media literacy research methods parasocial experiences and race and the media among others New chapters tackle cutting edge issues like artificial intelligence research in media and social justice the impact of deep fakes and social media on conspiracy theories the psychology of fandom the self as reflected in avatars the evolution of video games and virtual reality and the psychological experience of the pandemic related to media use Together this volume retains and broadens our understanding of the foundational aspects of media psychology from research methods and theory to fields like cognitive and developmental psychology It presents novel approaches to how we conceptualize operationalize and analyze media psychological phenomena Building on the field defining research of the first edition this update collects scholarship covering the most essential developments in media psychology in the last decade **Clinically Oriented Anatomy of the Dog and Cat (2nd**

Edition) M.S.A.
