Congress. Senate. Committee on Indian Affairs (1993-), 1996 **Government reform of higher**

education Great Britain: Parliament: House of Commons: Business, Innovation and Skills Committee, Adrian Bailey, 2011-11-10 This report concludes that the Government's communications strategy on tuition fees could have been more effectively realised. It urges the government to reconsider funding widening participation in higher education through a programme similar to the pupil premium. The committee also concluded that focusing financial support on providing money for living costs to students while they are studying would be a more effective means of support than fee waivers and would be more consistent with the message that students should not be dissuaded from applying to university because of the cost and recommends that the National Scholarship Programme be refocused accordingly. Furthermore, reforms are not yet complete with a number of consultation exercises currently out for responses including early repayment penalties for loans, the future of student number controls, loans for students studying at alternative providers, off-quota students, and a new regulatory framework for new and alternative providers. The detail to be required in the Key Information Sets has yet to be finalised. There will also need to be changes to both OFFA and HEFCE to reflect their changing responsibilities in higher education. The committee highlights the fact that the new fee regime is to start at the beginning of the next academic year and there is concern that the necessary coherent package of reforms be delivered to that timetable. The report also stresses that the reforms should be implemented as a package and not in a piecemeal way. **"Code of Massachusetts regulations, 1997"**

, 1997 Archival snapshot of entire looseleaf Code of Massachusetts Regulations held by the Social Law Library of Massachusetts as of January 2020 **Sociology of Higher Education** Patricia J. Gumport, 2007-07-16 Outstanding. It presents a comprehensive state of the field and it explores the role of sociological research in guiding higher education practice. Choice In this volume Patricia Gumport and other leading scholars examine the sociology of higher education as it has evolved since the publication of Burton Clark's foundational article in 1973. They trace diverse conceptual and empirical developments along several major lines of specialization and analyze the ways in which wider societal and institutional changes in higher education have influenced this vital field of study. In her own chapters Gumport identifies the factors that constrain or facilitate the field's development, including different intellectual legacies and professional contexts for faculty in sociology and in education. She also considers prospects for the future legitimacy and vitality of the field. Featuring extensive reviews of the literature, this volume will be invaluable for scholars and students of sociology and higher education.

American Indian Higher Educational Experiences Terry E. Huffman, 2008 American Indian Higher Educational Experiences examines the multiple ways sixty-nine American Indian college students construct and use their ethnic identity while enrolled in a predominantly non-Indian university. Although their cultural backgrounds and orientations differ widely, for all of these sixty-nine students there exists a profound connection between how they view their personal ethnicity and how they interpret their experiences in academia.
