**Crisis in the Professions** Kevin T Leicht,Mary Fennell,2023-03-03 Crisis in the Professions The New Dark Age presents a wide panoramic view into the state of modern professional work in the United States Struggling labor markets growing inequalities and increasing amounts of cultural and political mistrust are but a few major changes undermining the people seen as essential in society and needed to compete in a globalized highly skilled world The authors explore this profound dilemma through a variety of methods each one allowing them to identify significant areas of change and concern They

address macro level social political and economic forces at the root of these changes and pair these explanations with illustrative vignettes of young would be professionals to paint a comprehensive albeit complicated picture of professional work in the 21st century Amid a backdrop of increasing globalization technological advance and cultural devaluation of expertise the authors point attention to the mounting implications these shifts have for new generations of professionals and consider alternative models to address signs of precarity and instability within the professions With piercing insight and compelling evidence *Crisis in the Professions* probes deeply enough to stimulate scholars and researchers invested in the sociological study of work and provides a valuable versatile read for advanced students in these areas as well

**ICASDMBW 2022** Mangesh M Ghonge,Akanksha Upadhyaya,Richard A Montanaro,2023-02-28 In today s complicated environment strategic organizational decision making is a dynamic process marked by a high degree of uncertainty It is anticipated that the technological potential of artificial intelligence AI will provide additional support but research in this area is still in its early stages Nonetheless because the technology is intended to perform functions beyond those of traditional machines the implications for the division of work and the defining of roles established in the current human machine relationship are being explored with more awareness Taking this into consideration ICASDMBW 2022 was flourishingly organized on Dec 16 17 2022 at Rukmini Devi Institute of Advanced Studies Delhi The conference was organized with the purpose to see the applications of AI in the business world and management decision making More than 100 participants from around the world participated in the conference and shared their insights and research ideas relevant to the theme of the conference We are pleased to inform you that following careful evaluation the conference panel has chosen 21 excellent papers from the submissions and assembled them into the proceedings The following themes are included in the proceedings although they are not restricted to AI in Human Resources AI in Finance AI in Education AI in Marketing Statistical analysis etc Each manuscript has undergone thorough review and editing in order to ensure that it satisfies publication standards The City Record New York (N.Y.),1918 **Governance and sector outcomes** Anna Wetterberg,Derick W. Brinkerhoff,2018-09-27 A critical issue in international development is how donor funded programs can support sustainable and long lasting changes in assisted countries Among the factors associated with sustainability is improved governance However many donor funded initiatives are focused on achieving results in specific sectors such as health education and agriculture How can how governance interventions contribute to achieving sector specific results This brief explores this question and discusses how international development practice has incorporated recognition of the links between governance and sector outcomes The brief develops a stylized continuum of how governance elements relate to sector interventions and contribute to expected outcomes We discuss factors that either impede or impel governance integration and close with some observations regarding prospects for integrated programming The audience for the brief is the international development policy and practitioner communities and secondarily academics with an interest in the topic

Key take aways include 1 there is ample evidence of positive contributions from improved governance to sector specific outcomes but few guideposts exist for practical and effective governance integration 2 barriers to integration include urgent sector priorities that overshadow governance concerns requirements to demonstrate progress towards ambitious sector targets and complex choices related to measurement and 3 sustainability and self reliance are major drivers for integration and are facilitated by the flexibility and adaptation that governance integration enables
