LAB EXERCISE 5: Lizard Evolution Virtual Lab

Answer the following questions as you finish each module in the virtual lab.

MODULE 1: Introduction

At the beginning of the virtual lab, you were asked to select eight lizards from a category. What criteria did you use to select your lizards?

My criteria were: size, color, and shape of the lizards.

Did your lizards grow different body types?

Yes, because the lizards that were selected to grow different body types were selected based on their body type. For example, the lizards that were selected to grow different body types were selected based on their body type.

An adaptation is a structure or function that the organism has as a response to its environment. Give an example of a structure and a function that is an adaptation. (Provide one example and an explanation of an adaptation in the space below.)

Example: The lizards that were selected to grow different body types were selected based on their body type. For example, the lizards that were selected to grow different body types were selected based on their body type.

Provide one adaptation that you think is important for the lizards to have. (Provide one adaptation in the space below.)

Example: The lizards that were selected to grow different body types were selected based on their body type. For example, the lizards that were selected to grow different body types were selected based on their body type.
