Educating in the Spirit Eric J. Kyle, 2019-05-16 This book is an attempt to address two struggles for theistic educators e g those who approach their educational vocation from a religious perspective whether they are working in secular or faith based institutions The first struggle is that while numerous guidelines on teaching excellence have been compiled the resulting checklists can contain more than a hundred criteria to consider This book therefore identifies the evidence based guidelines that are likely to have the highest impact on student achievement thereby empowering educators to focus their efforts in more substantial ways The second struggle is related to the lack of resources which can help educators to view and approach their vocation from a theistic perspective While there are texts that discuss the relationship of spirituality and or theology to education few to date have sought to bring evidence based educational literature into dialogue with the western Christian tradition and thereby develop a bottom up theology of education This book addresses this historical and theological gap Overall this book is therefore intended to not only provide theistic educators with high impact guidelines that can significantly improve the quality of education in their school systems but it also strives to do so from a thoroughly theistic perspective

Gamification in A Flipped Classroom Zamzami Zainuddin, Samuel Kai Wah Chu, Corinne Jacqueline Perera, 2024-04-30 This book introduces to researchers and teaching practitioners the concept of gamification within a flipped classroom setting which resonates with the best practices of flipped learning gamified learning and gamified flipped learning The gamified flipped learning flipped learning plus gamification approach combines two emerging pedagogies into a single pedagogical form of instruction and serves as an alternative resolution to counter the challenges that arise from flipped learning and gamified learning as separate pedagogies This book also examines assessment systems for flipped classrooms showcases various examples of gamification in flipped classroom designs and reviews educational applications containing game elements for a flipped classroom setting
