The Spirit and the Song Steven Félix-Jäger, Chris E. W. Green, 2024-09-16 *The Spirit and the Song* Pneumatological Reflections on Popular Music explores pertinent pneumatological issues that arise in music. It offers three distinct contributions: first, it asks what if anything music tells listeners about God's Spiritiveness. Can the experience of music speak to human spiritiveness, the world's transcendence, or a person's own self-transcendence in ways nothing else does or can? Second, this book explores how the Spirit functions within and even determines culture through music. Because music is a profound human expression, it can find itself in a rich dialogue with the Spirit. Third, and finally, this book explores the contested status of music in Christian spiritual traditions. It deals with music as inspired by the Spirit, music as participation in Spiritiveness, and music as temptation of the flesh. As such, this book also engages music's placement in Christian spiritual traditions. The contributors of this book ask how Christian convictions about and experiences of the Spirit might shape the way one thinks about music.

The Hillsong Movement Examined Tanya Riches, Tom Wagner, 2017-11-02 This interdisciplinary volume brings together leading writers and thinkers to provide a critique of a broad range of topics related to Hillsong Church. Hillsong is one of the most influential, visible, and in some circles controversial religious organizations of the past thirty years. Although it has received significant attention from both the academy and the popular press, the vast majority of the scholarship lacks the scope and nuance necessary to understand the complexity of the movement or its implications for the social, cultural, political, spiritual, and religious milieu it inhabits. This volume begins to redress this by filling important gaps in knowledge as well as introducing different audiences to new perspectives. In doing so, it enriches our understanding of one of the most influential Christian organizations of the late 20th and early 21st centuries.

Music, Branding and Consumer Culture in Church Tom Wagner, 2019-10-16 Starting as a single congregation in Australia, Hillsong Church now has campuses worldwide, releases worship music that sells millions of albums, and its ministers regularly appear in mainstream media. So how has a single church gained such international prominence? This book offers an ethnographic exploration of the ways in which music and marketing have been utilised in the pursuit and production of spiritual experience for members of Hillsong Church. An experience that has proven to be incredibly popular. The main theme of this book is that marketing, specifically branding, is not just a way to sell religion but rather an integral part of spiritual experience in consumer society. Focussing on the London Hillsong church as a case study, the use of its own music in tandem with strong branding is shown to be a co- and re-productive method of organizing, patterning, and communicating information. The church provides the branded material and cultural context in which participants' sacred experience of self unfolds. However, this requires participants to do the work to properly understand and ultimately embody the values associated with the brand. This book raises important questions about the role of branding and music in forming modern sacred identities. As such, it will be of great interest to scholars of Religious Studies, Ethnomusicology, and Media Studies.
