Richard Boothby

Jacques Lacan Et Le Sentiment Religieux:

Jacques Lacan et le sentiment religieux Pierre Daviot, 2006 Si la psychanalyse n'est pas une religion pourquoi en emprunte-t-elle si souvent le chemin Comment une pratique laïque et athée héritière du débat des Lumières peut-elle espérer trouver des réponses à ses propres questions dans les expériences subjectives qui ont guidé pour le meilleur et pour le pire les générations antérieures À quels risques s'exposent ceux qui croient se garder de la métaphysique en méconnaissance de cause sans s'apercevoir que l'émancipation de la psychanalyse de tout fondement religieux laisse le champ ouvert à sa contamination subreptice par des implications métaphysiques qui sont dans la nature même de l'esprit Lacan En quoi dans ce contexte l'enseignement de Lacan qui ne pouvait manquer de se trouver confronté au fait religieux peut-il réellement constituer une innovation Telles sont les lignes de force de cet ouvrage qui tente partir d'une présentation des écrits d'une relecture de la thèse de 1932 et des premiers articles sur la paranoïa de cerner de façon accessible au profane les principaux concepts inventés ou repris par Lacan En retrouvant leurs sources en restituant le contexte dont ils portent la marque et qu'ils ont leur tour influencé il replace le débat sur son véritable terrain celui d'une expérience commune de la souffrance placée sous le signe d'un désir en quête de l'objet de sa réalisation Pages de début Avant-propos I Présentation des écrits II L'hypothèse de la lettre volée III Du stade du miroir au grand autre IV L'apartenance aux romains V Une question de style VI L'objet VII Plaisir langage et réalité VIII Le jardin des délices Pages de fin

The Oxford Handbook of Philosophy and Psychoanalysis Richard Gipps, Michael Lacewing, 2019-02-21 Psychoanalysis is often equated with Sigmund Freud but this comparison ignores the wide range of clinical practices observational methods general theories and cross-pollinations with other disciplines that characterise contemporary psychoanalytic work Central psychoanalytic concepts to do with unconscious motivation primitive forms of thought defence mechanisms and transference form a mainstay of today's richly textured contemporary clinical psychological practice In this landmark collection on philosophy and psychoanalysis leading researchers provide an evaluative overview of current thinking Written at the interface between these two disciplines The Oxford Handbook of Philosophy and Psychoanalysis contains original contributions that will shape the future of debate With 34 chapters divided into eight sections covering history clinical theory phenomenology science aesthetics religion ethics and political and social theory this Oxford Handbook displays the enduring depth breadth and promise of integrating philosophical and psychoanalytic thought Anyone interested in the philosophical implications of psychoanalysis as well as philosophical challenges to and re-statements of psychoanalysis will want to consult this book It will be a vital resource for academic researchers psychoanalysts and other mental health professionals graduates and trainees

Embracing the Void Richard Boothby, 2022-11-15 A radical reinterpretation of the origin of religion through a psychoanalytic theorization of the unknown Renowned psychoanalytic philosopher Richard Boothby puts forward a novel theory of religion inspired by Jacques Lacan's theory of das Ding the disquieting inaccessible dimension of fellow human beings This notion of an unfathomable excess originally encountered in

the figure of the mother led Lacan to break with Freud's formulation of the Oedipus complex and underlies Lacan's distinctive conception of unconscious dynamics. Leaning on this account, Boothby shows how our sense of the sacred arises from our relation to what we do not know. Embracing the Void lays out the range of Freud's attempts at a psychoanalytic theory of religion and then sketches the rough contours of Lacan's contrasting approach. From there, Boothby offers the theoretical tools for interpreting the religious impulse and analyzes key religious traditions from ancient Greek polytheism to Judaism and Christianity and from Hinduism and Buddhism to Islam, finally turning to modern capitalist culture and the seductive deity that dominates it: money. Lucid, accessible and compelling, the book provides a cogent intervention in one of the psychoanalytic tradition's most contentious topics and offers a new approach to our understanding of religion. Jacques Lacan Slavoj Žižek, 2003 Jacques Lacan 1901-1980 is undoubtedly the central figure of psychoanalysis in the second half of the 20th century. The texts selected here present the entire scope of the Lacan debate. Enjoying What We Don't Have Todd McGowan, 2020-03-01 Although there have been many attempts to apply the ideas of psychoanalysis to political thought, this book is the first to identify the political project inherent in the fundamental tenets of psychoanalysis. And this political project, Todd McGowan contends, provides an avenue for emancipatory politics after the failure of Marxism in the twentieth century. Where others seeking the political import of psychoanalysis have looked to Freud's early work on sexuality, McGowan focuses on Freud's discovery of the death drive and Jacques Lacan's elaboration of this concept. He argues that the self-destruction occurring as a result of the death drive is the foundational act of emancipation around which we should construct our political philosophy. Psychoanalysis offers the possibility for thinking about emancipation not as an act of overcoming loss but as the embrace of loss. It is only through the embrace of loss, McGowan suggests, that we find the path to enjoyment and enjoyment is the determinative factor in all political struggles and only in a political project that embraces the centrality of loss will we find a viable alternative to global capitalism. Industries culturelles, travail et création Jean-Marc Durand-Gasselin, Jean Cooren, Olivier Assouly, 2017-01-26 T00:00:00+01:00 Industries culturelles, travail et création Les œuvres d'art sont ascétiques et sans pudeur. L'industrie culturelle est pornographique et prude. disent en 1944 Horkheimer et Adorno dans La Dialectique de la raison. Dès le milieu du XXe siècle, la production culturelle a pris la forme de l'industrie de la division du travail, du marketing et du commerce et ce phénomène se rétroagit sur le contenu des œuvres produisant une sensibilité standardisée voire de nouvelles formes d'aliénation. Aujourd'hui, on nomme industries culturelles un secteur économique incluant les institutions publiques aussi bien que des organismes privés qui produisent et diffusent. Et si l'on sait que la production artistique ou intellectuelle frappe depuis longtemps les processus de production capitaliste de type industriel ou y a été incluse, il convient de nous tourner vers des penseurs qui ont analysé cette société ou examinent ces théories en regard de la situation contemporaine. Sommaire Industries culturelles ou industries culturelles par Jean-Marc Durand-Gasselin Diffusion de l'art et les arts conférence radiophonique de T.W. Adorno 1967 Rohmer et la question de la critique par Richard
