| <p><b>Important instructions to candidates</b></p> <ol style="list-style-type: none"> <li>The answer should be supported by the words and not a word for word as given in the model answer sheets.</li> <li>The model answer is only the answer written by the candidate that may not be the answer that leads to the understanding level of the candidate.</li> <li>The language used in the answer should be grammatical. Spelling errors should not be given. Misinterpretation will not be given for spelling, English and communication skills.</li> <li>While answering figures, equations, etc. you must use proper mathematical notations in the figures. The figure should be suitable and model answer may vary. The candidate may give credit for any suitable figure drawn.</li> <li>Students may be given marking for theoretical questions. In some cases, the student should write only one and there may be some difference in the candidate's answers and model answer.</li> <li>In case of short questions credit may be given for judgment or part of answer if relevant answer based on candidate's understanding.</li> <li>In programming language questions, credit may be given for any other program based on equivalent answer.</li> <li>In case the subject teacher or the candidate has any difficulty, marking in English, Marathi and Marathi language is possible. Marking is independent of the year in which the student appears. Marking is possible in any language of the student's choice. But the student must write the answer in the language of the student's choice.</li> </ol> |             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |                      |
