

A man with a beard and sunglasses, wearing a black jacket and blue jeans, sits on a chrome motorcycle. He is holding a handgun in his right hand, pointing it forward. The motorcycle is on a paved path that leads into a green field. In the background, there are rolling green hills, a few trees, and a small white building. A large, bright lightning bolt strikes the ground to the left of the path. The sky is dark and stormy, with another smaller lightning bolt visible on the right side. The overall mood is dramatic and intense.

Perfecting Human Actions John Michael Rziha, 2009 During the last few centuries a practical dichotomy between God and humans has developed within moral theory As a result moral theory tends to focus only on humans where human autonomy is foundational or only on God where divine commands capriciously rule However the moral theology of Thomas Aquinas overcomes this dichotomy For Thomas humans reach their perfection by participating in God s wisdom and love Perfecting Human Actions explores the ways humans participate in eternal law God s wisdom that guides and moves all things to their proper action The book begins with a thoughtful examination of the philosophic recovery of the notion of participation in Thomistic metaphysics It then explains Thomas s theological understanding of the notion of participation to show how humans are related to God It is discovered that when performing human actions humans participate in the eternal law in two ways as moved and governed by it and cognitively In reference to participation as moved and governed humans are directed by God to their proper end of eternal happiness This mode of participation can be increased by perfecting the natural inclinations through virtue grace and the gifts of the Holy Spirit In reference to cognitive participation humans as rational creatures can know their proper end and how to attain it Through this knowledge of moral truths the intellect participates in the eternal law Cognitive participation is perfected by the intellectual virtues especially faith and the gifts of the Holy Spirit especially wisdom The book concludes by showing how the notion of human participation in the eternal law is a much better foundation for moral theory than the contemporary notion of autonomy

ABOUT THE AUTHOR John Rziha is associate professor of theology at Benedictine College

PRAISE FOR THE BOOK A competent and indeed masterful study Rziha s book is to be welcomed as not just an important but indeed an overdue contribution to the contemporary recovery of Aquinas s moral theory More importantly this study is of surpassing importance in advancing the correct understanding of the relationship between human freedom and natural law Rziha s lucidly written and well documented study displays all the characteristics of a competent and learned interpretation of the thought of the doctor communis according to the highest standards of current Aquinas scholarship Reinhard Hutter Thomist Rziha explores at length the two modes by which human participate in God s eternal law as moved and governed by it and as having knowledge of it T his book proves to be something of a comprehensive course in Thomistic thought This project is supported by extensive
