Englar, 2020-07-12 Good communication skills provide better clinical outcomes and help avoid minor as well as major mistakes Approximately 60-80% of negligence claims against vets are related to poor communication with new graduates especially vulnerable Communication skills are a growing part of the curriculum in veterinary schools recognising how fundamental clear communication is to good practice A Guide to Oral Communication in Veterinary Medicine covers why communication skills are important the structure of typical communications and suggested approaches veterinary specific communication pathways and sample scripts between vet and client Scenarios covered include everyday communication dealing with challenging situations different species different settings and communication within the veterinary team The aim is to instil confidence and competence build professionalism and avoid problems Most current teaching is based on a toolbox approach developed from the human medicine model However there is

no set standard for teaching methodology which is why this is primarily a book for students but also includes a section for educators to provide guidance in this nascent subject 5m Books

Transrational Peace Research and Elicitive Facilitation Norbert Koppensteiner, 2020-06-22 This book sheds new light on transrational approaches to peace research and highlights elicitive approaches to facilitation Rather than encouraging researchers teachers and practitioners to control and suppress their own positionality the book argues that they can see themselves as a potential resource that can be creatively tapped for their work Using dance as a central metaphor it seeks to reposition research and facilitation as a truly experiential process where the entirety of human experiences and epistemologies can be brought into interplay opening up new sources of knowledge Providing a cutting edge theoretical framework and based on his practical experience the author demonstrates that facilitation and research are not just cognitive but can also become embodied emotional intuitive relational and spiritual By proposing a systematic methodological framework for research and facilitation the book offers practical guidance for peace practitioners facilitators and researchers interested in working through all dimensions of their being and engaging with conflict transformation in a holistic way

Social Ecology and Education David Wright, Stuart B. Hill, 2020-09-01 Social Ecology and Education addresses ecological understanding as a transformative educational issue a learning response to emerging insights into social ecological relationships and the future of life on our planet In the face of the existential threats posed by climate change loss of biodiversity pandemics and the associated ecological and social challenges there is a need to extend our responses beyond scientific inquiry and technological initiatives This book seeks to move the dialogue towards a deeper and broader understanding of the complexities of the issues involved To achieve this the book discusses issues rarely addressed through programs in Education for Sustainability and Environmental Education such as student defined knowledge systems deep engagement with the implications of indigenous understandings climate change as symptomatic of broad epistemological problems social disengagement and differentiated barriers to meaningful change This work is enriched by its focus on the learning and the learning systems that have led to our current predicament This book seeks to initiate considerations of this kind to invigorate education for sustainable equitable healthy and meaningful futures As such this book will be of great interest to undergraduate and postgraduate students in a range of education and environmental courses
