**Legion or An Immigrant's Tale** Oleksandr Sambor,2025-04-30 This is my attempt to capture in digital form echoes of a time spent in the L gion trang re Imagine these not as precise historical records but as memories transformed into narrative a grandfather s tales perhaps spun years later for an audience of grandchildren Bear with me the chronology may wander and strict adherence to grammar might be flexible Specific Foreign Legion terms les mots de l bas will appear in their original French Names and ranks emerge only when their significance is unmistakable Others remain veiled either lost to time or protected by discretion Let me emphasize this is not intended as a recruitment tool My perspective is deeply personal often laced with criticism and irony Those with unwavering devotion to the military or the French Republic may find my viewpoint idiosyncratic These are the reflections of a former immigrant who served those five years pursuing French citizenship and whose experiences were inevitably shaped by individual perspectives expectations and beliefs The content is divided into parts related to my stay in certain regiments of the Foreign Legion 1 RE 4 RE 3 REI These parts are divided into specific chapters and then into more particular mini themes If you aim to inform yourself about something specific you can find it in a table of contents If the topic is irrelevant the reader can skip it and go to the content he is more interested in If all goes well the content presented here will be Part 1 mainly describing my first steps of emigration boot camp and my stay in French Guiana      **Contentious City** John Mollenkopf,2005-08-25 Few public projects have ever dealt with economic and emotional issues as large as those surrounding the rebuilding of lower Manhattan following the terrorist attack of September 11 2001 Picking up the pieces involved substantial challenges deciding how to memorialize one of America s greatest tragedies how to balance the legal claim of landowners against the moral claim of survivors who want a say in the future of

Ground Zero and how to rebuild the Trade Center site while preserving the sacredness and solemnity that Americans now attribute to the area. All the while the governor, the mayor, the Port Authority and the leaseholder competed with one another to advance their own interests and visions of the redevelopment while at least leaving the impression that the decisions were the public's to make. In *Contentious City*, editor John Mollenkopf and a team of leading scholars analyze the wide-ranging political dimensions of the recovery process. *Contentious City* takes an in-depth look at the competing interests and demands of the numerous stakeholders who have sought to influence the direction of the recovery process. Lynne Sagalyn addresses the complicated institutional politics behind the rebuilding which involve a newly formed development commission seeking legitimacy, a two-state transportation agency whose brief venture into land ownership puts it in control of the world's most famous 16 acres of land and a private business group whose affiliation with the World Trade Center places it squarely in a fight for billions of dollars in insurance funds. Arielle Goldberg profiles five civic associations that sprouted up to voice public opinion about the redevelopment process. While the groups did not gain much leverage over policy outcomes, Goldberg argues that they were influential in steering the agenda of decision makers and establishing what values would be prioritized in the development plans. James Young, a member of the jury that selected the design for the World Trade Center site memorial, discusses the challenge of trying to simultaneously memorialize a tragic event while helping those who suffered find renewal and move on with their lives. Editor John Mollenkopf contributes a chapter on how the September 11 terrorist attacks altered the course of politics in New York and how politicians at the city and state level adapted to the new political climate after 9/11 to win elected office. Moving forward after the destruction of the Twin Towers was a daunting task made more difficult by the numerous competing claims on the site and the varied opinions on how it should be used in the future. *Contentious City* brings together the voices surrounding this intense debate and helps make sense of the rival interests vying for control over one of the most controversial urban development programs in history.

A Russell Sage Foundation September 11 Initiative Volume     New Strangers in Paradise Gilbert H. Muller, 2014-07-11 *New Strangers in Paradise* offers the first in-depth account of the ways in which contemporary American fiction has been shaped by the successive generations of immigrants to reach U.S. shores. Gilbert Muller reveals how the intersections of peoples, regions and competing cultural histories have remade the American cultural landscape in the aftermath of World War II. Muller focuses on the literature of Holocaust survivors, Chicanos, Latinos, African Caribbeans and Asian Americans. In the quest for a new identity, each of these groups seeks the American dream and rewrites the story of what it means to be an American. *New Strangers in Paradise* explores the psychology of uprooted peoples and the relations of culture and power, addressing issues of race and ethnicity, multiculturalism and pluralism and national and international conflicts. Examining the groups of immigrants in the cultural and historical context both of America and of the lands from which they originated, Muller argues that this fourth wave of immigration has led to a creative flowering in modern fiction. The book offers a fresh perspective on the writings of Vladimir

*Nineteenth-Century American Literature and the Discourse of Natural History* Juliana Chow, 2021-11-18 Nineteenth Century American Literature and the Discourse of Natural History illuminates how literary experimentation with natural history provides penumbral views of environmental survival The book brings together feminist revisions of scientific objectivity and critical race theory on diaspora to show how biogeography influenced material and metaphorical concepts of species and race It also highlights how lesser known writers of color like Simon Pokagon and James McCune Smith connected species migration and mutability to forms of racial uplift The book situates these literary visions of environmental fragility and survival amidst the development of Darwinian theories of evolution and against a westward expanding American settler colonialism

Mintz, 1993 Among the millions of Jews who immigrated to America in the early twentieth century there were the few for whom Hebrew culture was an important ideal Reaching a critical mass around World War I these American Hebraists attempted to establish a vital Hebrew culture in America They founded journals and wrote Hebrew poetry fiction and essays largely about the American Jewish experience and they succeeded in putting a Hebraist stamp upon most of the Jewish education that took place between the two world wars Hebrew in America is the first book to fully explore the Jewish attachment to Hebrew in twentieth century North America Fifteen leading scholars in Judaic studies write about the legacy of American Hebraism and the claims it continues to make upon the soul of the American Jewish community While they might commonly lament the eclipse of Hebrew in America they speak with many different voices when it comes to the analysis of problems and the prospects for change Several writers look backward to the impact of the Hebrew movement in America on literature and education Others consider the implications of Hebrew's arrival on the college campus Another emphasis of the book is the relationship between language and culture in the case of Hebrew from anthropological educational and linguistic perspectives And finally several essays assess the role of Hebrew in the development of Jewish leadership in America as regards the relationship with the classic past and with contemporary Israel *American Tricksters* William J.
