

# Earthquake Destroys Lives

17 October 2013

Thousands of people were killed in the 8.6 magnitude earthquake that occurred yesterday afternoon in Auckland. Countless homes and buildings were destroyed, even throughout the after shocks. The quake happened at 5:26 p.m. local time on October 16 barely 2km from Auckland City Centre. All of Auckland were affected and was felt in Hastings which is 430 kms distance from Auckland. Areas such as Welsford, Huntly and Thames suffered great damage from the devastating earthquake. New Zealand lies on two tectonic plates being the Indian-Australian plate and the Pacific plate. It is rare for Auckland to have an earthquake let alone at such a large magnitude. It was out of great luck that no volcanoes were disturbed. Dozens of Defence Force units were dispatched quickly and have saved hundreds of lives in the last few hours. The entire East Coast of Auckland is almost destroyed, but luckily more people than houses survived. Thousands of people

Aftermath of October Earthquake in South Auckland 18:38 p.m.

have injuries ranging from minor to serious. Very few managed to have only scratches as they followed quick earthquake procedures. Families have been split up and search for many people are still underway. Kiwis are trying to keep their spirits up through these tough times as they find temporary homes. Special belongings and family heirlooms can not be replaced in this tragedy, but people are holding their heads high as they try find their loved

ones. The search for lost people can go on for weeks and hopefully most, if not all, are found. "It was so random when it happened, no one really saw it coming. It was scary," says West Auckland resident Rachael Keene. Rachael's family are altogether at her sister's place south of Auckland. There she is hoping to hear good news regarding the lost and found.
