**Reading from the Underside of Selfhood** Lisa E. Dahill, 2009-01-01 Dietrich Bonhoeffer's example of self-sacrificing discipleship has for over fifty years inspired Christians around the world in both their resistance to evil and their devotion to Jesus Christ Yet for some readers particularly those who suffer trauma abuse and other forms of violence Bonhoeffer's insistence on self-sacrifice on becoming a person for others may prove more harmful than liberating For those already socialized into self-abnegation uncritical applications of Bonhoeffer's teachings may reinforce submission rather than resistance to evil This study explores Bonhoeffer's understandings of selfhood and spiritual formation both in his own experience and writings and in light of the role of gender in psycho-spiritual development The central constructive chapter creates a mediated conversation between Bonhoeffer and these feminist psychologists on the spiritual formation of survivors of trauma and abuse including not only dimensions of his thinking to be critiqued from this perspective but also important resources he contributes toward a truly liberating Christian spirituality for those on the underside of selfhood The book concludes with suggestions regarding the broader relevance of this study and implications for ministry The insights for spiritual formation developed here provide powerful proof of Bonhoeffer's continuing and concretely contextualized relevance for readers across the full spectrum of human selfhood

*Paul and Asklepios* Christopher D. Stanley, 2022-08-25 What role did offers of physical healing or the hope of receiving it play in the missionary program of the apostle Paul What did he do to treat the many illnesses and injuries that he endured while pursuing his mission What did he advise his followers to do regarding their health problems Such questions have been broadly neglected in studies of Paul and his churches but Christopher D. Stanley shows how vital they truly become once we recognize how thoroughly pagan religion was implicated in all aspects of Greco-Roman health care What did Paul approve and what did he reject Given Paul's

silence on these subjects Stanley relies on a cross cultural and interdisciplinary approach to develop informed judgments about what Paul might have thought said and done with regard to his own and his followers health care He begins by exploring the nature and extent of sickness in the Roman world and the four overlapping health care systems that were available to Paul and his followers home remedies magical treatments religious healing and medical care He then examines how Judeans and Christians in the centuries before and after Paul viewed and engaged with these systems Finally he speculates on what kinds of treatments Paul might have approved or rejected and whether he might have used promises of healing to attract people to his movement The result is a thorough and nuanced analysis of a vital dimension of Greco Roman social life and Paul s place within it
