The Routledge Handbook of Megachurches Afe Adogame, Chad M. Bauman, Damaris Parsitau, Jeaney Yip, 2024-05-07

The Routledge Handbook of Megachurches provides a survey of global megachurch phenomena with an international slate of authors introducing existing and emerging research on a wide variety of relevant topics. Over the past decade the field of megachurch studies has matured and become global in its scope and orientation. The Handbook offers 33 chapters by top scholars in the field focusing in particular on the location, demographic nature and transnational connections of megachurches. Megachurch worship, hermeneutics and theology in theory and practice. Megachurch institutional dynamics. The various ways that megachurches have both influenced and been influenced by their social contexts in terms of class, age, gender, sexuality and pop culture. The Handbook's interdisciplinary orientation makes it essential reading for sociologists, political scientists, anthropologists, media specialists, pop culture observers, business strategists, leadership consultants, marketing analysts, scholars of religion and Christian historians, theologians and missiologists. Experienced scholars of megachurches will gain valuable insight into aspects of megachurch research beyond their own specializations. Scholars new to the field will find the chapters useful as signposts for where to begin their own academic exploration. Christian pastors and laypeople will learn more about this increasingly prominent and influential form of their faith.

Music, Branding and Consumer Culture in Church Tom Wagner, 2019-10-16. Starting as a single congregation in Australia, Hillsong Church now has campuses worldwide, releases worship music that sells millions of albums, and its ministers regularly appear in mainstream media. So how has a single church gained such international prominence? This book offers an ethnographic exploration of the ways in which music and marketing have been utilised in the pursuit and production of spiritual experience for members of Hillsong Church. An experience that has proven to be incredibly popular. The main theme of this book is that marketing, specifically branding, is not just a way to sell religion but rather an integral part of spiritual experience in consumer society. Focussing on the London Hillsong church as a case study, the use of its own music in tandem with strong branding is shown to be a co- and re-productive method of organizing, patterning and communicating information. The church provides the branded material and cultural context in which participants' sacred experience of self unfolds. However, this requires participants to do the work to properly understand and ultimately embody the values associated with the brand. This book raises important questions about the role of branding and music in forming modern sacred identities. As such, it will be of great interest to scholars of Religious Studies, Ethnomusicology and Media Studies.
