

To what extent was Stalin's success in the power struggle after Lenin's death due to Trotsky's errors of judgement? (25 marks)

It can be appreciated that Trotsky considerably undermined Stalin's capability to be a strong leader in the Bolshevik Party. Despite early warning signs, for example Stalin being elected to the Central Committee Party in 1917 and becoming a member of the Politburo in 1918, Trotsky viewed Stalin as a "background character" with no ambitions. But his position in the party inevitably meant that he was placed close to Lenin and was seen as a trustworthy adviser, therefor making him a major contender as Lenin's successor. This alone though was not the sole reason for Stalin's success in the power struggle, other factors such as his power base, policies and mistakes of other party members significantly contributed. So, it can be argued that Stalin would have rose to success regardless of Trotsky's misjudgement, since his integrity and tactics dominated over external influences from other party members.

Trotsky was a prominent figure in the Bolshevik party, playing a crucial role in the success of the October Revolution and the consolidation of Bolshevik power, which earned him widespread respect within the party and positioned him as one of the foremost contenders for Lenin's replacement. Yet this respect also fuelled Trotsky's self-admiration and arrogance, he was often dismissive of other party members ideas and was looked down on those he felt were less wise than him- meaning that he failed build strong alliances within the party to counter Stalin's growing influence, which left him growing authority and becoming closer to Lenin.

He was also distrusted by many colleagues due to his Jewish background and there was a fear that he would use the Red Army to seize power. Aswell as this, Trotsky had a reputation of being indecisive and failing to act swiftly- for example he was not in Moscow for Lenin's funeral which provoked accusations that he was lazy and didn't care to attend. Stalin gave the funeral oration which encouraged the idea that he had adequate leadership skills. Trotsky was delayed in asserting his claim to power, which allowed Stalin to consolidate his position as General Secretary and gain control over the party arrangement. Aswell as this, Trotsky kept silent as Kamenev and Zinoviev decided that Lenin's secret testament (first written December 1922) should not be made public knowledge. This would have been damning for Stalin's reputation (Lenin suggested he be removed from post as General Secretary) and beneficial for Trotsky's reputation as it may have mentioned that he was most capable member of his replacements. It was clear that Trotsky's mistakes left him at a disadvantage, but it is more credible to argue that Stalin's success in the power struggle was due to his own political skill. Indeed, his colleagues

South African Autobiography as Subjective History Lena Englund, 2021-09-14 This book examines 21st century South African autobiographical writing that addresses the nation's socio-political realities both past and present. The texts in focus represent and depict a South Africa caught in the midst of contradictory and competing images of the Rainbow Nation. Arguing that recent memoirs question and criticize the illusion of a united nation, the study shows how these texts reveal the flaws and shortcomings not only of the apartheid past but of contemporary South Africa. It encompasses a broad range of autobiographical works largely published since 2009 that engage with South Africa's past, present and future. At its centre is the quest for space and belonging and this book investigates who can comfortably belong in South Africa in its post-apartheid, post-Truth and Reconciliation, post-Mbeki and post-Zuma state.

Enlightened Oxford Nigel Aston, 2023-09-19 Enlightened Oxford aims to discern, establish and clarify the multiplicity of connections between the University of Oxford, its members and the world outside to offer readers a fresh contextualised sense of the University's role in the state, in society and in relation to other institutions between the Williamite Revolution and the first decade of the nineteenth century, the era loosely describable though not without much qualification as England's ancien regime. Nigel Aston asks where Oxford fitted in to the broader social and cultural picture of the time, locating the University's importance in Church and state and pondering its place as an institution that upheld religious entitlement in an ever-shifting

intellectual world where national and confessional boundaries were under scrutiny Enlightened Oxford is less an inside history than a consideration of an institutional presence and its place in the life of the country and further afield While admitting the degree of corporate inertia to be found in the University there was internal scope for members so inclined to be creative in their teaching open new research lines and be unapologetic Whigs rather than unrepentant Tories For if Oxford was a seat of learning rooted in its past and with an increasing antiquarian awareness of its inheritance yet it had a surprising capacity for adaptation a scope for intellectual and political pluralism that was not incompatible with enlightened values

Jubuntu Larissa Denk, 2023-02-13 This study investigates the nexus between giving belonging and Jewishness in South Africa Charitable interactions are as much manifestations of inequalities as an expression of the giving individual's desire to alleviate them Structuring aspects like class race economics and post apartheid politics are at the basis of this study At the same time though it is individual agency reproducing inequalities and making sense of the ambiguity of the charitable interaction In the context of the Jewish community in South Africa this analysis shows how the community's organisations practices and concepts are connected to charitable giving The author carved out three dimensions which are entangled reinforced or at times contradict each other Belonging diaspora and charitable giving Along with shared values and practices it relates to volunteering or charitable giving connects one individual to a group while possibly excluding another from it Expressing belonging to the Jewish collective as a diaspora community relates individuals or collectives to the triadic relationship between local diaspora group host society and homeland and other local communities of the same diaspora
