*Report to the Congress on the Foreign Assistance Program for Fiscal Year ..* United States. Agency for International Development, United States. President, 1961      **The Herald**, 2012      *Sustainability and Poverty Alleviation* Ernesto SÃnchez-Triana, Santiago Enriquez, Bjorn Larsen, Peter Webster, Javaid Afzal, 2015-07-31 In 2009 more than 40 000 people died prematurely in Sindh Pakistan because of an illness associated with an environmental health risk This means that almost one of every five deaths that occurred that year was caused by environmental factors Loss of natural resources and impacts from natural disasters also represent development challenges Increased salinity and waterlogging result in loss of agricultural crops In addition hydro meteorological hazards recurrently affect Sindh as illustrated by the devastating effects of the 2010 and 2011 floods For Sindh's population these problems mean pain and suffering and reduced opportunities for economic advancement The costs of all these phenomena are equivalent to 10% of Sindh's Gross Domestic Product Climate change may exacerbate these challenges Sindh's environmental and climate change problems call for urgent responses A number of feasible interventions could be carried out to address the categories of environmental degradation that have the highest impacts on Sindh's population Many of those interventions have positive benefit cost ratios meaning that every rupee invested in them would result in health and social benefits worth more than one rupee Addressing these challenges also calls for targeted institutional strengthening and policy improvements particularly after the 18th Constitutional Amendment devolved environmental management responsibilities to provincial governments The underlying goal of this book is to facilitate and stimulate sharing of information on these phenomena and to provide an interdisciplinary framework for bringing about improved environmental conditions in Sindh It includes a methodology that enables the identification of environmental and climate change priority problems the analysis of interventions to address such problems the establishment of a social learning mechanism to continuously improve Sindh's responses and build resilience in the face of

climate variability and change and opportunities for the potential involvement of different stakeholder groups to decisively tackle climate change and deteriorating environmental conditions *Pakistan Labour Gazette* ,1983 **Icarus** Brian Brivati,2021-07-20 In 2017 Arif Naqvi and The Abraaj Group were on the brink of changing the world of private equity Abraaj was a pioneer of impact investing it had helped transform communities and companies across the world by financing healthcare education and clean energy projects and it was about to close a new fund worth 6 billion But then it all came crashing down On 10 April 2019 after landing at London Heathrow Naqvi was arrested on fraud charges He is facing extradition to the United States and a prison sentence of up to 291 years if he is found guilty The dominant media narrative has painted Naqvi as a thief and fraudster the key man in an organised criminal conspiracy But in this explosive book which is based on extensive research and interviews Brian Brivati investigates how things are not quite what they seem Icarus explores how Abraaj found itself caught in the middle of a geopolitical war between the United States and China and when it would not back down economic hitmen tried to wipe it out **WAPDA Annual Report** Pakistan. **Public Infrastructure Performance in Developing Countries** Abdul Ghafoor,2024-11-01 This title was first published in 2000 An investigation of the performance of the electric power and telecommunication sectors of Pakistan at the firm level as well as the sector as a whole seeking to identify and quantify the extent of inefficiencies Since physical or financial or productivity indicators alone are not able to explain the duality of public infrastructure purposes the financial and productivity indicators have been used in evaluating the performance of these sectors Further a Cobb Douglas production function has also been used to calculate the trend in the growth of total factor productivity Economies of scale have also been studied in the case of electric power generation The results of the study show that in Pakistan one of the usual motives for privatization to avoid the poor financial results of state enterprises is not relevant for electricity and telecommunications enterprises This however appears to be due to the financial subsidies they received through access to low cost loan finance and grants rather than to their efficiency in operations By the economic criteria of growth of TFP none of the enterprises do well and two have a negative TFP growth The case for reforming these enterprises is strong and alternative modes of organization finance and ownership need to be considered *Annual Report* Chamber of Commerce & Industry (Pakistan),1991
