

## Section 2

# Percentage and Calendar Functions

### Percentage Functions

The hp 12c platinum includes three keys for solving percentage problems: [%], [Δ%], and [%T]. You don't need to convert percentages to their decimal equivalents; this is done automatically when you press any of these keys. Thus, 4% need not be changed to 0.04; you key it in the way you see and say it: 4[%].

#### Percentages in RPN Mode

In RPN mode, to find the amount corresponding to a percentage of a number:

1. Key in the base number.
2. Press [ENTER].
3. Key in the percentage.
4. Press [%].

For example, to find 14% of \$300:

Keystrokes (RPN mode)	Display	
300	300 .	Keys in the base number.
[ENTER]	300 . 00	Pressing [ENTER] separates the next number entered from the first number, just as when an ordinary arithmetic calculation is performed.
14	14 .	Keys in the percentage.
[%]	42 . 00	Calculates the amount.

If the base number is already in the display as a result of a previous calculation, you should not press [ENTER] before keying in the percentage — just as in a chain arithmetic calculation.
