This text focuses on the risks faced by managers of financial institutions and the methods and markets through which these

risks are managed The context is the Canadian financial services industry The text begins with thumbnail sketches of the

industry its member companies their structures and the regulatory environment It looks not only at banks but also at

insurance companies trust companies credit unions investment banks and finance companies providing a holistic view of the

challenges of liquidity risk interest rate risk market risk credit and other risks in the global environment This highly regarded

text continues to take the same innovative approach as the first edition focusing on managing return and risk The book s

central theme is that the risks faced by financial institution managers and the methods and markets through which these

risks are managed are essentially the same whether the institution is a commercial bank an investment bank a credit union

an insurance company or a finance company A second theme that emerges in this edition is that the risks booked by the

financial institution use risk capital and generate an expected return that should justify that use The authors explain the

latest techniques of risk measurement against the backdrop of the convergence of worldwide securities investment credit

and insurance industries **Proceedings of the 7th International Conference on Social and Political Sciences**
