Tina P. Hasenpusch, Clearing forms the core part of a smooth and efficiently functioning financial market infrastructure Traditionally it has been provided by clearing houses most of which today act as a central counterparty CCP between the two sides of a trade The rapid growth of cross border trading has sparked discussion on the most efficient industry structure particularly in Europe and the US At the heart of this discussion lies the question of whether the implementation of a single clearing house creates greater benefits than a more competitive but interlinked market structure This is the starting point for this book which analyses the efficiency of clearing and clearing industry structure Along with clear cut definitions and a concise characterisation and descriptive analysis of the clearing industry the book determines the efficiency impact of various cross border integration and harmonisation initiatives between CCPs This serves to identify the most preferable future structure for the clearing industry **Bond Markets, Analysis, and Strategies, tenth edition** Frank J.
