[Date]

To: Medicaid Representative
592 Capitol Avenue
Macon, Georgia 75021

To Whom It May Concern,

This letter is to request assistance for purchasing the medications I need to treat anxiety disorder. The medicine was prescribed by my specialist Leonard Hammond on January 19, 2021.

I was referred to your organization by my doctor because the medications I need to take for the rest of my life are too expensive for me to afford on my fixed retirement income. I understand that you give assistance to people who are eligible either by helping them pay for their medications or with free or very low-cost medicines.

I have completed the application form on your website and enclose a copy of it here. I have also enclosed a letter from my doctor stating that medicine is required for me to continue my everyday activities.

Also, I have enclosed a copy of my medical record regarding my disease including a copy of the prescription and my last three bank financial statements. As you can see, the cost of the medicine, which is \$400, is a very high percentage of my monthly income.

Gitterman,2017-02-14 Modern presidents are CEOs with broad powers over the federal government The United States Constitution lays out three hypothetically equal branches of government the executive the legislative and the judicial but over the years the president as head of the executive branch has emerged as the usually dominant political and administrative force at the federal level In fact Daniel Gitterman tells us the president is effectively the CEO of an enormous federal bureaucracy Using the unique legal authority delegated by thousands of laws the ability to issue executive orders and the capacity to shape how federal agencies write and enforce rules the president calls the shots as to how the government is run on a daily basis Modern presidents have for example used the power of the purchaser to require federal contractors to pay a minimum wage and to prohibit contracting with companies and contractors that knowingly employ unauthorized alien workers Presidents and their staffs use specific tools including executive orders and memoranda to agency heads as instruments of control and influence over the government and the private sector For

more than a century they have used these tools without violating the separation of powers Calling the Shots demonstrates how each of these executive powers is a powerful weapon of coercion and redistribution in the president's political and policymaking arsenal [Annual Register of Grant Support](#) ,1981 **Universal Medical Care from Conception to End of Life** Murray Sabrin, PH.D.,2021-08-11 Why has medical care become so complicated and expensive Not very long ago an individual would visit a doctor to be treated for an illness that could not be cured by one of Grandma's recipes Whether it was a sore throat earache or digestive pain Grandma usually had some homespun medicine to deal with a common health issue And if Grandma's medicine chest was not able to deal with a family member's illness a neighborhood doctor was usually available to treat working families at his office or he would make a house call for a reasonable fee Fast forward to today Is the current system of providing medical care namely through employer based insurance Medicare Medicaid and Obamacare the optimal methods to provide high quality low cost care to all Americans The answer is a resounding no Universal Medical Care from Conception to End of Life The Case for a Single Payer System explains why the current system of employer based insurance and government programs such as Medicare Medicaid and Obamacare are financially untenable and yields less than optimal outcomes for patients Yet there are calls for more top down approaches to medical care most notably by Senator Bernie Sanders who has campaigned for the presidency on a Medicare for All program essentially putting all Americans under one medical umbrella where the government would set all the parameters for medical care Under the individual single payer system outlined in Sabrin's manifesto every American adult would be in charge of his or her medical coverage There would be no more conflicts regarding insurance companies or the government paying for abortion contraception and other controversial medical procedures and medications In a free market every adult the single payer would pay for what he/she needs to achieve optimal health [Tax Rules Governing Private Foundations](#) United States.
