Building on Resilience Fred A. Bonner II, 2023-07-03 How do we fix the leaky educational pipeline into a conduit of success for Black males That the issue is critical is demonstrated by the statistics that only 10% of Black males in the United States are proficient in 8th grade reading only 52% graduate from high school within four years and only 35 percent graduate from college This book uniquely examines the trajectory of Black males through the educational pipeline from pre school through college In doing so it not only contributes significantly to the scholarship on the experiences of this

population but bridges the gap between theory and practice to provide frameworks and models that will improve these young men's educational outcomes throughout their educational journeys. A compelling feature of the book is that it does not treat Black males as homogeneous but recognizes the diversity that exists among Black males in various educational settings. It demonstrates the need to recognize students' intersectionalities and individual characteristics as an essential preliminary to developing practices to improve outcomes at every educational stage. Throughout the contributing authors also focus on the strategies and experiences of Black males who achieve academic excellence, examining growth-producing and asset-based practices that can be sustained and that build upon the recognition that these males have agency and possess qualities such as resilience that are essential to their learning and development. The frameworks and models that conclude each chapter are equally commendable to K-12 educators and administrators, higher education faculty, student affairs practitioners, and administrators and policymakers for whom templates are provided for rectifying the continuing inequities of our educational system.

Three Essays Examining the Health Economics of Women and Their Children Bradley Gray, 1997 **Gender and Genre** C. Hudgins, L. Kane, 2001-06-01

Critical and popular debate about Mamet's work often centers on whether we should read his misogynist, unloving characters as reflecting his own misogyny or should recognize a Mametian irony in his memorable depictions. Irony is intimately related to issues of genre and to audience expectations. In turn, Mamet's celebrity colors responses to his work. The essays in this collection approach these controversial topics of gender and genre with verve, ranging from those which cast Mamet as a macho misogynist to those which understand his work as deeply ironic and even feminist. Topics include plays from the early *Sexual Perversity in Chicago* to the recent Jolly two films *House of Games* and *Homicide* and Mamet's first novel *The Village*.
