Marion,2018-10-15 From the 1920s Afghanistan maintained a small air arm that depended heavily upon outside assistance Starting in 2005 the United States led an air advisory campaign to rebuild the Afghan Air Force AAF In 2007 a formal joint combined entity led by a U S Air Force brigadier general began air advisor work with Afghan airmen Between 2007 and 2011 these efforts made modest progress in terms of infrastructures personnel and aircraft accessions and various training courses But by 2010 advisors increasingly viewed AAF command and control C2 as a problem area that required significant improvement if a professional air force was to be built In the spring of 2011 major institutional changes to AAF C2 procedures were being introduced when nine U S air advisors were killed The attack was the worst single incident loss of U S Air Force personnel in a deployed location since 1996 and the worst insider attack since 2001 From the day of that tragic event the cultural chasm between Afghanistan and the West became more apparent This dilemma continues with no end in sight to an air advisory mission of uncertain long term value **Re-Constructing Grassroots Holocaust Memory** Irina Rebrova,2020-10-26 The main objective of the book is to allocate the grass roots initiatives of remembering the Holocaust victims in a particular region of Russia which has a very diverse ethnic structure and little presence of Jews at the same time It aims to find out how such individual initiatives correspond to the official Russian hero orientated concept of remembering the Second World war with almost no attention to the memory of war victims including Holocaust victims North Caucasus became the last address of thousands of Soviet Jews both evacuees and locals While there was almost no attention paid to the Holocaust victims in the official Soviet propaganda in the postwar period local activists and historians together with the members of Jewish communities preserved Holocaust memory by installing small obelisks at the killing sites writing novels and making documentaries teaching about the Holocaust at schools and making small thematic exhibitions in the local and school museums Individual types of grass roots activities in the region on remembering Holocaust victims are analyzed in each chapter of the book **The Future of the Soviet Past** Anton Weiss-Wendt,Nanci Adler,2021-10-05 In post Soviet Russia there is a persistent trend to repress control or even co opt national history By reshaping memory to suit a politically convenient narrative Russia has fashioned a good future out of a bad past While Putin s regime has acquired nearly complete control over interpretations of the past The Future of the Soviet Past reveals that Russia s inability to fully rewrite its Soviet history plays an essential part in its current political agenda Diverse contributors consider the many ways in which public narrative shapes Russian culture from cinema television and music to museums legislature and education as well as how patriotism reflected in these forms of culture implies a casual acceptance of the valorization of Stalin and his role in World War II The Future of the Soviet Past provides

effective and nuanced examples of how Russia has reimagined its Soviet history as well as how that past still influences Russia's policymaking

The Child in the Electric Chair Eli Faber, 2021-06-25 The tragic story of the killing of 14 year old George Junius Stinney Jr the youngest person executed in the United States during the twentieth century At 7 30 a m on June 16 1944 George Junius Stinney Jr was escorted by four guards to the death chamber Wearing socks but no shoes the 14 year old Black boy walked with his Bible tucked under his arm The guards strapped his slight five foot one inch frame into the electric chair His small size made it difficult to affix the electrode to his right leg and the face mask which was clearly too large fell to the floor when the executioner flipped the switch That day George Stinney became and today remains the youngest person executed in the United States during the twentieth century How was it possible even in Jim Crow South Carolina for a child to be convicted sentenced to death and executed based on circumstantial evidence in a trial that lasted only a few hours Through extensive archival research and interviews with Stinney's contemporaries men and women alive today who still carry distinctive memories of the events that rocked the small town of Alcolu and the entire state Eli Faber pieces together the chain of events that led to this tragic injustice The first book to fully explore the events leading to Stinney's death The Child in the Electric Chair offers a compelling narrative with a meticulously researched analysis of the world in which Stinney lived the era of lynching segregation and racist assumptions about Black Americans Faber explains how a systemically racist system paired with the personal ambitions of powerful individuals turned a blind eye to human decency and one of the basic tenets of the American legal system that individuals are innocent until proven guilty As society continues to grapple with the legacies of racial injustice the story of George Stinney remains one that can teach us lessons about our collective past and present By ably placing the Stinney case into a larger context Faber reveals how this case is not
