in Heaven Usually people marry by hunch or impulse or because their parents think it is a good match or because they get themselves so deeply involved romantically that marrying seems the only proper thing to do Too frequently such methods merely mess up a couple of people's lives More than a third of all the millions of marriages undertaken in the last ten years are in trouble Many are already dissolved Many more soon will be A great deal of research and counseling has now been done in the field of marriage and the findings validated At Penn State for example hundreds of couples who were tested before marriage at the Marriage Counseling Service are checked periodically after marriage to find how they are making out Of all the marriages which the service predicted would be successful not one has yet ended in divorce or separation Most of the people who went ahead despite the clinic's cautions are already in serious trouble or have been divorced As a result of many such investigations reliable information is available on the kinds of people who make the best mates and on the causes of marriage success and failure In this book we have tried to include those findings which should be most helpful and interesting to all people involved in love or marriage but particularly to people who sooner or later will be taking unto themselves a mate It is not our intention to lay down a set of rules for people to follow But we hope that after reading this book you will be more enlightened in your hunches than you might be otherwise and be a much happier and more desirable mate yourself

**How They Make It Work... 21 Habits of a Successful Marriage** Ed Wimberly, 2020-02-14 Throughout the course of my 45 years in private practice I have at times wondered how it is that some couples do so well beyond therapy and on their own to improve and progress while others who initially improve through the counseling process seem to fall back into many of their old and self-defeating habits It took me a while but I now understand that often those couples who fall back into their old destructive habits usually do so because they neglect to replace them with new and productive ones Removing dysfunctional habits must be followed by developing new and healthy habits *How They Make it Work* addresses 21 new habits I have consistently observed through follow up contacts that seem to help couples continue to thrive and to grow on their own beyond professional intervention At the end of each of the 21 chapters are several questions designed to help you process together the new habits that are being suggested here Since they have worked for others there is more than a good chance they will work for you Testimonials Dr Wimberly's book was thought provoking straight forward and easy to apply in

**How to Be a Good Wife and Keep Your Husband Happy** Mary Beth LeRoux, 2015-04-06 There s no question as to the importance of a man keeping his wife happy AKA the happy wife happy life theory but let s not forget that in marriage it takes two to tango We are only one half of the equation and the person we married is the other half our husbands And in order to have a happy marriage both sides of the equation need to be balanced Oddly enough in many cases of broken marriages wives reported to have been taken completely by surprise They never even suspected their husband to be unhappy until the day he asked for a divorce It s important that you try to stay in tune with your husband s emotional wellbeing so as to avoid such a scenario Taking care of our marriage is not merely about keeping our husbands happy but it s also about keeping our family intact When marriages are broken children are also affected This is yet another reason to keep your husband s happiness on your radar and make sure you treat him as a priority Of course being a good wife requires a lot of effort especially the type of effort you must exert for example to hold your tongue or to change your way of thinking But once you persevere and you begin to feel the positive changes take place in your marriage chances are you will feel even

more invigorated and energized than you've ever felt before This book is for all the strong women out there who are willing to take the necessary steps for the betterment of their marriage and family knowing that it may not always be easy If you apply the principles divulged in this book I guarantee that you will love being married again and that your husband will feel like a very lucky man Let's get started

So You Want to Get Married? Nick Sanchez, 2013-03 If a wonderful and lasting marriage is what you want this guide is for you So You Want to Get Married is a must read for anyone currently in a serious relationship or thinking about entering into one Initially written for his children the author writes in a fatherly and personal way about how to avoid major issues that often lead to painful divorces He also examines serious topics that better help you understand your potential spouse and identify your level of commitment to him/her Through an insightful and simple process using the fingers of the hand the author helps you think through and evaluate five critical areas everyone must consider before making a lifetime commitment to an individual His innovative approach makes it easy for anyone to learn and remember the issues you truly need to address With your acquired knowledge you will be better prepared to make a decision as to whether he/she is the right one for you and whether you will have a wonderful and lasting marriage This easy to remember set of principles brings clarity to the foggy world of love and marriage The advice in this book is the most useful I have ever heard I tell all my single friends about it I definitely used it when I was dating and now that I'm happily married I see things in my husband and I can say I knew this was the man I was marrying For me it is a great comfort Tirsa S Stewart

So You Want to Get Married is a concise and memorable checklist of five of the most important aspects to consider in a mate before making the big decision of marriage It helped me sift through many different candidates as I searched for the man of my dreams Now that I am living my fairy tale with him I continue to share the five finger analysis with all my single friends in hopes that they will also be able to find a wonderful loving companion to spend life and eternity with Arisa S Field

The Five Fingers theory is what taught me what is essential to a good marriage It does not teach that everyone needs to be perfect to the contrary it teaches that all people have flaws and that is normal The question is whether you are willing to accept and live happily with the flaws of the one you are considering spending the rest of your life with These are five things that no man/woman should look past when considering marriage Azalea S Klein

It was hard growing up without ever having a boyfriend until I was 23 But the five finger rule is what kept me from settling I now see that I avoided a lot of heart ache and bad choices by never getting serious with someone who didn't meet my basic five finger criteria I am also grateful that while my husband is not perfect I did get all five fingers even the pinkie Stacey S Carruth
