Five Pillars of the Spiritual Life Robert Spitzer, 2009-09-03 Saint Ignatius Loyola the founder of the Jesuits espoused the ideal of becoming contemplatives in action He was convinced that contemplation the deep awareness and appropriation of the unconditional love of God should affect our actions and that our actions need to be brought back to contemplation These five dimensions of the spiritual life 1 the Holy Eucharist 2 spontaneous prayer 3 the Beatitudes 4 partnership with the Holy Spirit and 5 the contemplative life itself generally do not develop simultaneously or even in parallel ways Some develop very quickly but do not achieve significant depth while others develop quite slowly but seem to be almost unending in the depth of wisdom trust hope virtue and love they engender The best way of explaining this is to look at each of the pillars individually Before doing this however it is indispensable for each of us to acknowledge at least intellectually the fundamental basis for Christian contemplation namely the unconditional Love of God Jesus taught us to address God as Abba If God really is Abba if His love is like the father of the prodigal son if Jesus passion and Eucharist are confirmations of that unconditional Love if God really did so love the world that He sent His only begotten Son into the world not to condemn us but to save us and bring us to eternal life Jn 3 16 19 if nothing really can separate us from the love of God in Christ Jesus Rm 8 31 39 and if God really has prepared us to grasp fully with all the holy

ones the breadth and length and height and depth of Christ's love and experience this love which surpasses all understanding so that we may attain to the fullness of God Himself Eph 3:18-20 then God's love is unconditional and it is therefore the foundation for unconditional trust and unconditional hope There can be nothing more important than contemplating affirming appropriating and living in this Unconditional Love This is the purpose of contemplation indeed the purpose of the spiritual life itself
