Vincent, 2024-12-09 Side hustles are a relatively new concept dating all the way back to the 1950s A side hustle is a way for individuals to generate money in addition to their normal jobs The word has exploded in popularity over the last decade as more people explore for methods to earn some extra money It s no accident that its popularity has coincided with the rise of the gig economy with the arrival of firms like Uber and AirBnB many people can now earn an additional income without making drastic lifestyle changes If you re interested in finding ways to earn money in your leisure time this is the guide for

you Chapter one discusses the benefits of side hustles chapter two discusses internet side hustles and chapter three discusses offline side hustles By the end of this book you ll be able to identify the ideal side hustle for your schedule and needs According to Princeton University research conducted in 2017 over 44 million Americans have a side hustle spanning practically every demographic The following statistics shed light on who engages in side hustles and why they do so 86 percent of side hustlers do so on a monthly basis This includes 96% of adults between the ages of 18 and 26 and 83% of people beyond the age of 26 The quantity of money earned via side hustles varies significantly between generations 36% of side hustlers earn more than 500 every month 50% of baby boomers earn this amount of income compared to just 19% of millennials who earn an average of 200 each month The majority of people in their fifties and sixties make more than 1 000 each month Just over half of side hustlers use their earnings to pay required expenses with only 46% viewing their earnings as disposable cash The way in which side hustle earnings are spent varies by gender with women more than twice as likely as men to use them to cover expenses The real question is why all of these individuals have side hustles The reasons vary from pragmatic to personal and it can be an excellent opportunity to experiment with something new if you re considering a career shift or simply want a new interest As inflation continues to climb and wages remain stagnant side hustles provide a measure of comfort to many individuals by demonstrating that they do not have to rely entirely on traditional job patterns for money The concept of work has evolved significantly over the last few decades and the growing popularity of side hustles is enabling an increasing number of individuals to combine work and play in ways that work for them **Insta-Success B.**

**JV Recruiting B.** Vincent,2024-12-10 What are joint ventures Historically JVs or Joint Enterprise Partners refers to individuals who joined forces to collaborate and partake in a business venture Today particularly in the field of Internet

Marketing IM it has a slightly different connotation JV has become abbreviation for affiliate or someone who refers traffic to your offer in exchange for a commission on each sale To be honest this has created some confusion because even with IM a JV partnership in the conventional sense is still possible For instance if you've created a video course and an ebook but lack the expertise or resources to get it online you may partner with someone who can handle web design and development and split profits 50/50 The fact that those two JV partners typically begin recruiting affiliates to drive traffic to their product while referring to those affiliates as JVs further complicates matters especially when those two JV partners divide earnings AFTER initial distributions to their JVs affiliates This occurs frequently in instant messaging and it's tough to decipher what someone means when they say would you like to be my JV However for whatever reason the majority of the time a person just means affiliate To be honest the IM community made a terrible error by confusing the concepts
