LAB EXERCISE 5: Lizard Evolution Virtual Lab

Answer the following questions as you finish each module in the virtual lab.

MODULE 1: Introduction

At the beginning of the virtual lab, you were asked to select eight lizards from a category. What criteria did you use to select your lizards?

They were all green and had different shapes of legs and bodies.

Did your lizards grow different body types?

Yes, because the lizards that were selected to grow different body types were selected based on their body type. The lizards that were selected to grow different body types were selected based on their body type.

An adaptation is a structure or function that is inherited by a population because it increases the ability to survive and reproduce in a particular environment. Provide one example and an explanation of an adaptation in the lizard lab.

The lizards that were selected to grow different body types were selected based on their body type. The lizards that were selected to grow different body types were selected based on their body type.

Provide one evolutionary explanation for why lizards that were selected to grow different body types (i.e., the green) would have survived a longer time.

The lizards that were selected to grow different body types were selected based on their body type. The lizards that were selected to grow different body types were selected based on their body type.
