## **NOTICE: HURRICANE MITIGATION RETROFIT REQUIREMENTS**

The 2007 Florida Legislature established new requirements for retrofitting buildings undergoing alteration with direction these new requirements go into effect October 1, 2007. The Legislature also directed the Florida Building Commission to develop prescriptive techniques for the requirements.

**The Florida Administrative Rule implementing the Legislature's mandate was adopted by the Commission at its August 21, 2007 meeting and will be in effect in October as directed.**

You may have heard the Florida Roofing and Sheet Metal Association together with the Building Officials Association of Florida is seeking a delay in implementation of the new requirements and the Commission supports a delay. However, the September special legislative session where the October 1, 2007 date could have been revised has itself been delayed. **The requirements will take effect as required by law.**

Please Note:

The law requires mitigation retrofits for **site-built, single family residential structures** and indicates the intent is the requirements apply to pre-Florida Building Code houses. See **Summary of Mitigation Requirements**.

**For specifics on the law, Ch. 2007-126, see online:**
