## **Icrc English Test:**

*Elite Discourse* Crispin Thurlow, Adam Jaworski, 2018-10-19 *Elite Discourse* examines how language and communication or just discourse define mediate and legitimize class privilege. It does so from the perspective of those people and places who often stand to gain most from inequality. Collectively, chapters consider language and communication that is elitist in its appeal to distinction, excellence, and superiority; they also describe the ways in which various groups and institutions lay claim to eliteness as a way to position themselves or to be positioned by others as elite or non-elite. As such, chapters are concerned as much with discourse about elite status as they are with the discourse of elites, those groups commonly defined by their material wealth, political control, or demographic rarity. Ultimately, *Elite Discourse* views elite as something we do rather than something we necessarily have or are. Indeed, elite status and eliteness point us to the rhetorical strategies by which many people differentiate themselves and by which they access symbolic material resources for shoring up their status, privilege, and power. This book was originally published as a special issue of *Social Semiotics*.
