

Basic Essay Format

Note: This document should only be used as a reference and should not replace assignment guidelines.

A basic essay consists of three main parts: introduction, body, and conclusion. Following this format will help you write and organize an essay. However, flexibility is important. While keeping this basic essay format in mind, let the topic and specific assignment guide the writing and organization.

Parts of an Essay

Introduction

The introduction guides your reader into the paper by introducing the topic. It should begin with a hook that catches the reader's interest. This hook could be a quote, an analogy, a question, etc. After getting the reader's attention, the introduction should give some background information on the topic. The ideas within the introduction should be general enough for the reader to understand the main claim and gradually become more specific to lead into the thesis statement. (See the Introductions handout for further information.)

Thesis Statement

The thesis statement concisely states the main idea or argument of the essay, sets limits on the topic, and can indicate the organization of the essay. The thesis works as a road map for the entire essay, showing the readers what you have to say and which main points you will use to support your ideas.

Body

The body of the essay supports the main points presented in the thesis. Each point is developed by one or more paragraphs and supported with specific details. These details can include support from research and experiences, depending on the assignment. In addition to this support, the author's own analysis and discussion of the topic ties ideas together and draws conclusions that support the thesis. Refer to "Parts of a Paragraph" below for further information on writing effective body paragraphs.

Transitions

Transitions connect paragraphs to each other and to the thesis. They are used within and between paragraphs to help the paper flow from one topic to the next. These transitions can be one or two words ("first," "next," "in addition," etc.) or one or two sentences that bring the reader to the next main point. The topic sentence of a paragraph often serves as a transition. (See the Transitions handout for further information.)

Conclusion

The conclusion brings together all the main points of the essay. It refers back to the thesis statement and leaves readers with a final thought and sense of closure by resolving any ideas brought up in the essay. It may also address the implications of the argument. In the conclusion, new topics or ideas that were not developed in the paper should not be introduced. (See the Conclusions handout for further information.)

Citations

If your paper incorporates research, be sure to give credit to each source using in-text citations and a *Works Cited/References/Bibliography* page. Refer to the *MLA Format*, *APA Format*, or *Turabian Format* handout for help with this.

Ideas For Concept Essay:

John Locke's Concept of Natural Law from the Essays on the Law of Nature to the Second Treatise of Government

Franziska Quabeck, 2013 John Locke's account of natural law which forms the very basis of his political philosophy has troubled many critics over time. The two works that shed light on Locke's theory are the early *Essays on the Law of Nature* and the *Second Treatise of Government* published over 20 years later. Many critics have assumed that the early work presents a voluntarist approach to natural law and the second a rationalist approach but the present analysis in this book shows that Locke's theory is consistent. Both works present a concept of the law of nature that must be placed between voluntarism and rationalism. Series Polyptoton Munster Collection Academic Writings Polyptoton Munsteraner Sammlung Akademischer Schriften Vol 3 *Essays on the Concept of Mind in Early-Modern Philosophy* Petr Glombíček, James Hill, 2010-02-19 An important task for every major philosopher is to offer us an understanding of the nature of mind. The essays in this volume discuss different aspects of the philosophical theories of mind put forward in the century and a half that followed Descartes' *Meditations* of 1641. These years, often referred to as the early modern period, are probably unparalleled for originality and diversity in conceiving the mind. The volume not only includes two essays on Descartes' own thinking but there are also examinations of what Spinoza, Malebranche, Locke, Berkeley, Reid, the Cambridge Platonists, and others have to say about the nature of mind. The aim of the volume is to represent some of the best contemporary research and reflection on mind in early modern philosophy. The contributors, who teach at a range of universities in mainland Europe, Great Britain, and North America, are Margaret Atherton, Miran Božovič, Petr Glombíček, Boris Hennig, James Hill, Nicholas Jolley, Jan Palkoska, G. A. J. Rogers, and Anthony Savile. All the essays appear here for the first time. **Essays on Deleuze** Daniel W. Smith, 2012-05-15 Gathers 20 of Smith's new and classic essays into one volume for the first time. Combining his most important pieces over the last 15 years along with two completely new essays, *On the Becoming of Concepts* and *The Idea of the Open*, this volume is Smith's definitive treatise on Deleuze. The four sections cover Deleuze's use of the history of philosophy, his philosophical system, several Deleuzian concepts, and his position within contemporary philosophy. Smith's essays are frequent references for students and scholars working on Deleuze. Several of the articles have already become touchstones in the field, notably those on Alain Badiou and Jacques Derrida. For anyone interested in Deleuze's philosophy, this book is not to be missed. **Essential Essays, Volume 1** Stuart Hall, 2018-12-06 From his arrival in Britain in the 1950s and involvement in the New Left to founding the field of cultural studies and examining race and identity in the 1990s and early 2000s, Stuart Hall has been central to shaping many of the cultural and political debates of our time. *Essential Essays*, a landmark two-volume set, brings together Stuart Hall's most influential and foundational works. Spanning the whole of his career, these volumes reflect the breadth and depth of his intellectual and political projects while demonstrating their continued vitality and importance. Volume 1, *Foundations of Cultural Studies*, focuses on the first half of Hall's career when he

wrestled with questions of culture class representation and politics This volume s stand out essays include his field defining Cultural Studies and Its Theoretical Legacies the prescient The Great Moving Right Show which first identified the emergent mode of authoritarian populism in British politics and Encoding and Decoding in the Television Discourse one of his most influential pieces of media criticism As a whole Volume 1 provides a panoramic view of Hall s fundamental contributions to cultural studies

Giving People Ideas - Text and Concept Godela Weiss-Sussex,2017-12-02 A special double issue of Publications of the English Goethe Society to celebrate the 70th birthday of Professor Martin Swales UCL UK This volume collects papers from a conference held at the Institute of Germanic and Romance Studies in October 2010 The conference aimed to analyse how literary texts articulate and give voice to ideas and ideologies In contrast to most philosophy literature rarely makes claims to systematic conceptual rigour Literary statements are always conjectural they are also conditioned by the conventions of the genre in which they are made Because literature is such a hypothetical medium of expression it is uniquely suited to philosophical experimentation Indeed because literature invokes imagined or remembered experience it functions as a laboratory in which ideas may be tested against experience Literature s formal qualities which allow for statement and counter statement move and counter move make it a highly sophisticated mode of discourse in which to test out ideas Concepts can be played against each other and genre conventions may be adhered to or subverted in order to create multiple layers of signification The papers presented are published here in this special issue of Publications of the English Goethe Society and take account of German or European poetry drama or prose literature from 1750 to the present day

Higher Order Thinking Skills in the Language Classroom: A Concise Guide Afsaneh Ghanizadeh, Ali H. Al-Hoorie, Safoura Jahedizadeh, 2020-09-11 In this book we try to provide a practical down to earth guide for those who are involved in language learning and teaching We hope that this book will be a useful reading for those who would like to incorporate higher order thinking skills HOTS enhancing techniques in their teaching practice We set out from the position that although it is hardly doubtful that it is at the heart of education critical thinking is in reality often not given its due attention in pedagogy particularly in language education This book offers readers some practical advice on how to implement HOTS in their own practice It has been written to take the reader through each technique with the ultimate goal of promoting HOTS step by step In the introductory chapter we present an overview of the theory behind HOTS its definition its relation to Bloom s Taxonomy its two dimensions critical thinking and reflective thinking and the ideas of some influential thinkers in this area The subsequent chapters present six HOTS enhancing techniques that classroom teachers can draw from namely graphic organizers critical discourse analysis argumentation emotion regulation and emotional intelligence enhancing techniques reflective journals and mindfulness based strategies As the book draws on a wide ranging review of literature with exercises for direct use with language learners we hope that this provides both theoretical and practical support for the teaching process to help language learners become effective critical thinkers The compilation of the ideas in
