*Decarbonizing Value Chains* Holger Kohl, Günther Seliger, Franz Dietrich, Ha Thuc Vien, 2025-06-26 This is an open access book It gathers the proceedings of the 20th Global Conference on Sustainable Manufacturing held on October 9 11 2024 in Binh Duong and Ho Chi Minh City Vietnam With a focus on sustainable manufacturing strategies for decarbonizing supply chains the chapters selected for this book report on models applied to and results achieved in the mobility energy and construction sector covering both aspects of digitalization and the combined application of circular economy and artificial intelligence Moreover they discuss energy efficient process reassembly and reuse and CO2 neutral production giving a special emphasis to developing sustainable manufacturing in South East Asia This book offers extensive and timely information for both researchers and professionals in the field of manufacturing and business development Advances in Manufacturing Technology II Peter F. McGoldrick, 2013-11-21 EN Corlett Joint Chairman COPED University of Nottingham Nottingham UK The contributions offered to this Third National Conference demonstrate that research in production is very much alive The considerable numbers of papers on robotics automation and flexible manufacturing systems together with those in production control and quality matters demonstrate that there is much work going on in our colleges polytechnics and universities related to modern methods of manufacture The future of manufacture undoubtedly hinges on better control Control over the supply and movement of materials is now keenly sought Control over manufacturing equipment is also a goal not just to maintain quality but to give flexibility in sequence and quantity None of these objectives for improved performance is entirely a technical matter although there is an increasing technical ability to influence all of them To achieve their potential they depend on competent people at all levels Discussion with alert managers soon reveals that this is one of their major concerns Either the people they have require more training or they cannot hire the people with the abilities they need This applies at all levels and the availability of people with competence in manufacture is particularly low Scientific and Technical Aerospace Reports ,1991 *Producer Prices and Price Indexes* ,1983-05 *Advanced Hybrid Composite Materials and their Applications* Ibrahim M.
