est temps pour les petites moyennes et grandes entreprises ainsi que pour les administrations d'intégrer plus d'humanisme dans leur mode de fonctionnement de manière à favoriser le bien-être de leur personnel tout en tenant compte des impératifs économiques du marché. C'est ce que propose le label Hu Man projeté seulement en Europe par sa conception et ses valeurs alliant croissance et humanisme. Les entreprises et administrations désireuses d'obtenir ce label doivent s'engager à respecter certains principes basés sur la cohésion sociale, l'égalité des genres et l'inclusion présentés dans cet ouvrage. Aujourd'hui, l'entreprise ne peut plus négliger le facteur humain, c'est même devenu un enjeu social et économique crucial dans la course à la compétitivité. Adopter les principes de Hu Man, c'est non seulement croire en son entreprise mais c'est surtout croire en l'avenir ensemble. Tout destinataire aura le lien Herquel pour poursuivre une carrière dans la finance internationale après avoir travaillé des années en tant qu'auditeur responsable anti-blanchiment d'argent, Risk Manager et responsable conformité pour de grands groupes américains traversant le globe. Mais c'est finalement vers l'humain qu'il a décidé de se tourner après avoir assisté au décès de l'un de ses collègues au travail. C'est ce jour que Hu Man est né.

L'arrivée des nouvelles générations, l'ouverture de l'entreprise sur son cosystème et le développement des technologies collaboratives impulsent des transformations importantes du monde du travail. Mais ces changements ne suffisent pas à rendre l'organisation plus performante. Pour stimuler la créativité et relever le défi de l'innovation, le manager du XXI^e siècle doit construire une vision fédératrice pour motiver ses collaborateurs, pratiquer un management d'influence en rupture avec le management d'autorité traditionnelle, favoriser l'apprentissage permanent et stimuler la collaboration, mettre en œuvre une communication efficace et encourager la transparence, capitaliser sur ses compétences relationnelles, empathie, pédagogie, intuition, souplesse, etc. Concrètement, comment le faire ? Cette 3^e édition entièrement revue et enrichie fournit des pistes pratiques fondées sur des expériences menées en France et à l'étranger pour accompagner les changements et réussir la co-construction de ses projets.

The Innovative Company Danièle Chauvel, Stefano Borzillo, 2017-08-07 The concept of innovation is the result of human activities carried out to produce a new product, service or something new that creates value. More recently, the idea of an innovative enterprise organization or company has emerged thanks to an increasing interest in innovation as an essential process in a variety of economic, technological and sociological contexts. This book is part of a set on Innovation between Risk and Reward and focuses on the close relationship between innovation and knowledge. It provides the reader with the outline of an innovative company focusing on the organizational aspects that contribute to defining it and sketching out the profile of what an innovative company is or should be in the age of knowledge. The authors explore the literary corpus in order to outline the state of the art but also the reality of innovative enterprise in the form of meetings and interviews with both large and small companies.
